Australian Industry Participation Plan Summary – Project Phase

Nominated project proponent:

EDIFY ENERGY PTY. LTD.

Project details

Project name:

Majors Creek and Ganymirra Hybrid Solar Power Station and BESS

Location:

Woodstock, Queensland

Type:

Electricity facility

Purpose:

Establish new facility

Capital expenditure:

$1 billion - $2 billion

Description:

The Majors Creek and Ganymirra Solar Power Station Project comprises a 300 MW, co-located solar generation facility in Majors Creek, Queensland, together with a 300MW / 1,200MWh lithium-ion BESS. The project will connect to the Powerlink Queensland 275kV transmission network and is located on Thul Garrie Waja country, the traditional lands of the Bindal People.

Supporting infrastructure includes BESS facilities, electrical connection infrastructure, and internal access roads and associated balance of plant works. Environmental and cultural heritage requirements have been addressed through development approvals from Townsville City Council (MCU22 0104 granted in 2023), and EPBC approval (Ref 7963 granted in 2017). The project will be delivered through an Engineering, Procurement and Construction (EPC) model, with the EPC contractor responsible for design, procurement, construction, testing, and commissioning. The BESS will be procured separately by the project owner and supplied to the EPC contractor for integration and commissioning as part of the project.

Long-lead item procurement is expected to commence within three (3) months of EPC contract award, with the overall construction and commissioning activities anticipated to be completed over an approximately three-year delivery programme.

The project is supported by a Capacity Investment Scheme (CIS) Agreement with the Australian Government through the Department of Climate Change, Energy, the Environment and Water. The CIS Agreement includes commitments relating to knowledge sharing, social licence, local content, and employment initiatives, and compliance with applicable Commonwealth policy requirements.

Estimated completion date:

31/10/2031

Key goods and services

Indicative list of key goods and services to be acquired for the project:

List of key goods and services:
An Australian entity is an entity with an ABN or CAN.

Key goods and services	Opportunity for entities	Explanation for no opportunities for Australian entities
Plant Hire	Opportunities for Australian entities	
Fuel Supply and Storage	Opportunities for Australian entities	
Chartered Flights	Opportunities for Australian entities	
O and M Warehouse Facility (Building)	Opportunities for Australian entities	
CCTV Camera	Opportunities for Australian entities	
Transportation - Bussing Services	Opportunities for Australian entities	
Construction Water	Opportunities for Australian entities	
Battery Energy Storage and Systems - Supply	Opportunities for non-Australian entities	It is necessary to procure the battery and storage systems from a foreign manufacturer as there are no Australian manufacturer with appropriate technology, sufficient scale or product maturity to provide a viable alternative for the type and quantity required for the Projects.
Engineering and Design	Opportunities for Australian entities	
Modules Supply	Opportunities for non-Australian entities	It is necessary to procure the battery and storage systems from a foreign manufacturer as there are no Australian manufacturer with appropriate technology, sufficient scale or product maturity to provide a viable alternative for the type and quantity required for the Projects.
Tracking Systems	Opportunities for Australian entities	

	Opportunities for non-Australian entities	
PCS/Inverters	Opportunities for non-Australian entities	It is necessary to procure the battery and storage systems from a foreign manufacturer as there are no Australian manufacturer with appropriate technology, sufficient scale or product maturity to provide a viable alternative for the type and quantity required for the Projects.
MV Switchgear	Opportunities for non-Australian entities	It is necessary to procure the battery and storage systems from a foreign manufacturer as there are no Australian manufacturer with appropriate technology, sufficient scale or product maturity to provide a viable alternative for the type and quantity required for the Projects.
HV Transformer	Opportunities for Australian entities	
Other Switchboards	Opportunities for Australian entities	
Site Facilities	Opportunities for Australian entities	
Combiner Boxes	Opportunities for Australian entities Opportunities for non-Australian entities	
Cable (DC and AC)	Opportunities for Australian entities Opportunities for non-Australian entities	
General Civil and Earthworks	Opportunities for Australian entities	
Piling Contractor	Opportunities for Australian entities	
Security	Opportunities for Australian entities	
Electrical Installation Contractor	Opportunities for Australian entities	
Survey	Opportunities for Australian entities	
Logistics	Opportunities for Australian entities Opportunities for non-Australian entities	

Accommodation	Opportunities for Australian entities	
Waste Management	Opportunities for Australian entities	
Permanent Fencing	Opportunities for Australian entities	
Kiosk Substation Supply	Opportunities for Australian entities Opportunities for non-Australian entities	
Met Station	Opportunities for Australian entities
