- 
- <sup>1</sup> If the application form is printed on the stationery containing this information, it should not be repeated in the body of the form.
  - <sup>2</sup> Permanent identifying marks in accordance with Regulations 15 and 19 including the batch number. Regulation 15 states that identifying marks (including the date of verification) may be marked on or attached to the standard of measurement. Where this is impractical due to the nature, shape or size of the standard of measurement, the standard of measurement shall be enclosed in a sealed container that is marked with the identifying marks.
  - <sup>3</sup> The information required should be specified by the verifying authority in the form or deleted if not required before it is made available to an applicant. Examples may include;  
Does the standard of measurement contain hazardous material? If so, provide information:  
Does the standard of measurement require special handling? If so, provide information:
