MMI Grant Application Decision Register

TABLE 1: APPLICATIONS SUPPORTED BY THE COMMITTEE FOR FUNDING

Application ID	NMP	Stream	Applicant	Project Title	Business Location	Project Location	Grant Sought	Committee Score /100	Committee Comments	Decision Maker Rank	
MMIMTMP000067	Medical Products	Translation	AVICENA SYSTEMS PTY LTD	Rethinking Molecular Diagnostics – a global opportunity for Australia	WEST PERTH, WA	WEST PERTH, WA	\$3,000,000	88	Very strong support for the development of this project. If commercialised it has enormous benefits worldwide and could be a major export generator and employer.		
MMIMTS000018	Space	Translation	EFFUSIONTECH PTY LTD	SPACE3D – Australian Industrial Rocket Engine Component Manufacturing	BAYVIEW, NT	BRINKIN, NT (50%) DANDENONG, VIC (25%) CAMPERDOWN, NSW (20%) NORTHGATE, QLD (5%)	\$1,256,124	87	Strong alignment with program objectives. Recommended project, with relatively low investment but potential for high return.		
MMIMIMP000029	Medical Products	Integration	NOUMED PHARMACEUTICALS PTY LTD	Noumed - Advancing Australian Pharmaceuticals Manufacturing	SALISBURY SOUTH, SA	SALISBURY SOUTH, SA	\$20,000,000	87	Strong proposal which leverages significant investment to set up manufacturing in Australia.		
MMIMTMP000039	Medical Products	Translation	VAXXAS PTY LTD	Manufacturing world-leading patented vaccination technology in Australia	WOOLLOONGABBA, QLD	HAMILTON, QLD (50%) COOPERS PLAINS, QLD (50%)	\$4,447,613	87	The project would enable unique manufacturing capability on shore in Australia and accelerate commercialisation pathway for a new product to come to market with existing collaborators already available to become customers		
	Resources	Translation	s 47E(d)					87			s 47E(d)
MMIMTRT000072	Resources	Translation	AUSTRALIAN VANADIUM LIMITED	Manufacturing of ultra-pure vanadium, electrolytes and vanadium batteries	WEST PERTH, WA	KWINANA, WA (65%) BALCATTIA, WA (12%) MEEKATHARRA, WA (11%) WEST PERTH, WA (9%) JANDAKOT, WA (3%)	\$3,948,583	86	This project will see creation of a vanadium electrolyte plant concurrently with transitioning towards an operational mine which aligns directly with the program objectives and outcomes. It will allow the company to capture the full production chain while focussing on providing quality outcomes for vanadium - which is the major issue in this industry - allowing it to target the most lucrative section of a growing market domestically and internationally.

									accelerating tech uptake for resources sector. Further supported by regional benefit.	
MMIMIMP000026	Medical Products	Integration	CYCLOWEST HOLDINGS PTY LTD	Producing high-value radiopharmaceuticals for diagnostics and therapy	EAST FREMANTLE, WA	BAYSWATER, WA	\$2,578,275	86	Strong project with good levels of external finance and high leverage of investment. Strong alignment with MMI objectives in manufacture of crucial medical materials. Application strong on a technical level and fills a gap in Australia.	
MMIMTRT000061	Resources	Translation	BATT MOBILE EQUIPMENT PTY LTD	Heavy battery-electric vehicle manufacture for underground hard rock mines	TOMAGO, NSW	TOMAGO, NSW (94%) HERMIDALE, NSW (2%) KAMBALDA, WA (2%) LEINSTER, WA (2%)	\$4,553,601	85	New technology and market application with spillover capability to other sectors. Very strong alignment with MMI objectives, enabling competitiveness in Australian mining in carbon constrained future. Moving from successful proof of concept to multiple prototypes, to learn lessons quickly in operating mines.

If successful, Albemarle's Western Australian product would have the best lithium ESG credentials in the world. Would Albemarle do this anyway? Probably. In my opinion, diverting tailings from landfill 500km away is a major win, as is producing something useful from waste.
