

## **Australian Government**

Australian Government response to the  
Senate Standing Committees on Rural and Regional  
Affairs and Transport report:

Current requirements for labelling of seafood and  
seafood products

[May 2024]

The Government notes additional recommendations 1-3 made by former Senator Nick Xenophon. However, given the passage of time since this report was tabled, a substantive Government response to these recommendations is no longer appropriate. The Government is taking action to enhance country of origin labelling for seafood.
