<p>3. How much IDD/DSA will an importer have to pay?</p>	<p><u>IDD/DSA – all exporters from Indonesia & United Arab Emirates (except PT Muliaglass)</u></p> <p>IDD/DSA is in the form of an ad valorem measure. The total IDD/DSA liability is calculated by multiplying the dumping export price (DXP) by the applicable IDD/DSA ad valorem duty rate.</p>
<p>4. Example of how to calculate the IDD/DSA liability</p>	<p><u>Ad Valorem measures</u></p> <p>The following is an example of how to calculate the IDD/DSA liability.</p> <ul style="list-style-type: none"> • DXP = AUD \$1,000 (Free-On-Board (FOB), cash) • IDD/DSA ad valorem rate = 10% <p>Total IDD/DSA liability</p> <p>The DXP (\$1,000) multiplied by the IDD/DSA ad valorem rate (10%) = \$100</p>
<p>5. What is the dumping export price (DXP) and how do I calculate it?</p>	<p>The DXP refers to the actual export price of the exported goods. The DXP should reflect the total export (invoice) price of the goods being entered, not the unit price of the goods.</p> <p>The DXP should be recorded on the relevant Full Import Declaration for the goods in the same terms as the export terms for the goods. Calculating the DXP may involve adjusting the actual export invoice price of the goods to the terms specified.</p> <p>For example, if the export terms are “FOB, cash” and the actual invoice terms of the goods are “CIF, 60 days, packed”, the following adjustments will need to be made in order to calculate the DXP at FOB, cash level.</p> <ul style="list-style-type: none"> • step 1 - an adjustment for interest on credit terms will need to be made; and • step 2 - the overseas freight and insurance components will need to be subtracted from the export invoice price. <p>Where suitable evidence cannot be proffered by the importer of the interest rate, then 1.0% per month (0.033% per day) should be applied to the actual invoice price credit terms.</p> <p>An example of adjusting for credit and incoterms is provided below:</p> <ul style="list-style-type: none"> • Invoice terms = CIF, 60 days • Specified terms = FOB, cash • Export price - invoice amount = \$1,000 <p>Marine insurance and ocean freight amount = \$100</p>

<p>5. What is the dumping export price (DXP) and how do I calculate it? (continued)</p>	<p>Step 1 - adjust for credit terms</p> <ol style="list-style-type: none"> 1. 1% per month interest rate should be applied to the invoiced price credit terms (i.e. 30 days = 1%) 2. If the invoiced CIF, 60 days price is \$1,000, then the CIF, cash price = \$980 (\$1,000 less 2%) <p>Step 2 - adjust for incoterms</p> <ol style="list-style-type: none"> 1. Adjust for freight and insurance to calculate DXP at FOB, cash equivalent 2. CIF, cash price of \$980 minus freight and insurance amount of \$100 = \$880 <ul style="list-style-type: none"> • The DXP price = \$880 FOB, cash
<p>6. What information is needed to complete an import declaration for goods subject to measures?</p>	<p>The information required by an importer or Customs broker to complete an import declaration for goods subject to IDD/DSA is:</p> <ul style="list-style-type: none"> • DXP; • Dumping Specification Number (DSN) or exemption type (where appropriate); • Country (this is usually country of origin or export country); • Tariff classification and statistical code; • Exporter / supplier; and • Quantity. <p>Please see below to determine which DSN applies to the exporter of your goods.</p>
<p>7. Will dumping securities collected on my imports be converted to measures?</p>	<p>Securities taken will be either cancelled or converted to IDD after the Minister's decision at the completion of the investigation.</p> <p>The ABF will contact each affected importer/broker and provide relevant cancellation and/or conversion instructions for each consignment subject to securities.</p>
<p>8. How do I lodge an entry for goods subject to dumping security?</p>	<p>Goods subject to DSA must be entered using the DSN shown below.</p> <p>Importers/brokers will need to complete and submit a dumping security undertaking form when lodging an entry for goods subject to these measures. Importers and Customs brokers should contact the National Temporary Imports and Securities section of the Australian Border Force at ntis@abf.gov.au to request and lodge the undertaking form and for further information relating to the operation of securities.</p>

11. What are the duty assessment importation and application period dates?	<p>An importer of goods on which an IDD/DSA has been paid, may lodge an application with the Commissioner requesting that the Parliamentary Secretary make an assessment of the final liability of those goods to duty.</p> <p>This usually occurs when an importer considers that the IDD/DSA paid in respect of goods exceed the total amount payable (i.e. importers consider they are entitled to a refund of duties). In relation to IDD/DSA, an importer may consider that the dumping margin for the goods is now less than it was during the investigation period, or that its exporter is no longer dumping, and as a result it has paid more duty than it should have paid.</p> <p>There are a series of time frames fixed by legislation that govern the duty assessment system (referred to as importation periods). The duty assessment importation periods and application dates for clear float glass from Indonesia, Thailand and China are:</p>
