

# Dumping Commodity Register

## Steel Pallet Racking

Exported from the People's Republic of China and Malaysia

Document release date	Brief description of change(s)
18 June 2018	Implementation of Provisional Measures
28 June 2018	Addition of Dexion (Australia) Pty Ltd as a supplier of Dexion (Shanghai) Logistics Equipment Co. Ltd
11 July 2018	Addition of New Solid International Corp as a supplier of Jiangsu NOVA intelligent Logistics Equipment Co. Ltd.
24 August 2018	Addition of IKEA Indirect Material and Services AB as a supplier of Dexion (Shanghai) Logistics Equipment Co. Ltd
7 November 2018	Amendment of Provisional Measures
8 May 2019	Implementation of interim dumping duties.

**Note:**

DCRs notify the outcomes of finalised investigations and should be read in conjunction with any relevant current investigations, such as reviews and inquiries. Please refer to the [Cases page](#) on the website to locate any current information for this commodity.

2. What types of steel pallet racking are subject to anti-dumping measures? .....	3
3. How much Interim Dumping Duties (IDD) will an importer have to pay? .....	4
4. Example of how to calculate the Interim Dumping Duties (IDD) liability .....	4
5. What is the dumping export price (DXP) and how do I calculate it? .....	4
6. What information is needed to complete an import declaration for goods subject to measures? .....	5
7. What DSN do I use for my imported goods and what are the rates for my exporter? .....	5
8. Are there any exporters exempt from IDD? .....	6
9. How long are the measures in place for? .....	6
10. What tariff classifications and statistical codes are covered by the anti-dumping measures? .....	6
11. What are the duty assessment importation and application period dates? .....	7

Question	Response
1. What countries do measures apply to?	<p>Measures currently apply to goods from the People's Republic of China (China) and Malaysia.</p> <p>On 8 May 2019, with an effective date of 9 May 2019, Anti-Dumping measures in the form of interim dumping duties (IDD) were imposed on steel pallet racking exported from China and Malaysia. For more information please refer to Final Report <a href="#">REP 441</a> and Anti-Dumping Notice <a href="#">2019/45</a>.</p>
2. What types of steel pallet racking are subject to anti-dumping measures?	<p><b>The goods subject to measures include:</b></p> <p>Steel Pallet racking, or parts thereof, assembled or unassembled, of dimensions that can be adjusted as required (with or without locking tabs and/or slots, and/or bolted or clamped connections), including any of the following - beams, uprights (up to 12m) and brace (with or without nuts and bolts).</p> <p><b>Further Information</b></p> <p>The goods are adjustable static racking structures capable of carrying and storing product loads, and components used to make static racking structures.</p> <p>Adjustable racking is a structure typically made from cold-formed or hot rolled steel structural members and includes components such as plates, rods, angles, shapes, sections, tubes and the like. Welding, bolting or clipping are the typical methods to assemble them. It may be racking installed within a building.</p> <p>A typical storage configuration comprises upright frames perpendicular to the aisles and independently adjustable, positive locking beams parallel to the aisle, spanning between the upright frames, and brace designed to support unit load actions. The racking layout and components used are designed to get the best efficiency for the shape and volume of the items stored. The applicable Australian Standard is AS4084-2012.</p> <p><a href="#">Ministerial Exemption Instrument No 1 of 2019</a> with an effective date of 19 June 2018.</p> <ul style="list-style-type: none"> <li>• IDD does not apply to all components or parts of steel pallet racking, other than beams, uprights and braces.</li> </ul> <p>For more information about the description of the goods subject to IDD, please refer to Final Report <a href="#">REP 441</a>.</p> <p><b>Please Note:</b></p> <ol style="list-style-type: none"> <li>1. When importing goods into the country importers are required to self-assess whether the imported goods meet the goods description outlined above and whether anti-dumping measures apply.</li> <li>2. The Anti-Dumping Commission is not in a position to provide advice on whether certain goods meet the description above.</li> <li>3. The use of exemption types is subject to monitoring by the Anti-Dumping Commission (the Commission) and Australian Border Force (ABF).</li> </ol>

<p>3. How much Interim Dumping Duties (IDD) will an importer have to pay?</p>	<p><b><u>IDD – all exporters</u></b></p> <p>IDD is in the form of an Ad Valorem measure. The total IDD liability is calculated by multiplying the dumping export price (DXP) by the applicable IDD ad valorem duty rate.</p>
<p>4. Example of how to calculate the Interim Dumping Duties (IDD) liability</p>	<p><b><u>Ad Valorem measures</u></b></p> <p>The following is an <b>example</b> of how to calculate the IDD liability.</p> <ul style="list-style-type: none"> <li>• DXP = AUD \$1,000 (Free-On-Board (FOB), cash)</li> <li>• IDD ad valorem rate = 10%</li> </ul> <p><b><u>IDD liability</u></b></p> <p><u>Fixed component of IDD:</u></p> <p>DXP (\$1,000) multiplied by the IDD ad valorem rate (10%) <math>\\$1,000 \times 10\% = \\$100</math></p>
<p>5. What is the dumping export price (DXP) and how do I calculate it?</p>	<p>The DXP refers to the actual export price of the exported goods. The DXP should reflect the total export (invoice) price of the goods being entered, not the unit price of the goods.</p> <p><b>The DXP should be recorded on the relevant Full Import Declaration for the goods in the same terms as the terms for the goods. Calculating the DXP may involve adjusting the actual export invoice price of the goods to the terms specified.</b></p> <p>For example, if the terms are “FOB, cash” and the actual invoice terms of the goods are “CIF, 60 days, packed”, the following adjustments will need to be made in order to calculate the DXP at FOB, cash level.</p> <ul style="list-style-type: none"> <li>• step 1 - an adjustment for interest on credit terms will need to be made; and</li> <li>• step 2 - the overseas freight and insurance components will need to be subtracted from the export invoice price.</li> </ul> <p>Where suitable evidence cannot be proffered by the importer of the interest rate, then 1.0% per month (0.033% per day) should be applied to the actual invoice price credit terms.</p> <p>An example of adjusting for credit and incoterms is provided below:</p> <ul style="list-style-type: none"> <li>• Invoice terms = CIF, 60 days</li> <li>• Specified terms = FOB, cash</li> <li>• Export price - invoice amount = \$1,000</li> <li>• Marine insurance and ocean freight amount = \$100</li> </ul>

5. What is the dumping export price (DXP) and how do I calculate it? (continued)	<p><b>Step 1 - adjust for credit terms</b></p> <ol style="list-style-type: none"><li>1% per month interest rate should be applied to the invoiced price credit terms (i.e. 30 days = 1%)</li><li>If the invoiced CIF, 60 days price is \$1,000, then the CIF, cash price = \$980 (\$1,000 less 2%)</li></ol> <p><b>Step 2 - adjust for incoterms</b></p> <ol style="list-style-type: none"><li>Adjust for freight and insurance to calculate DXP at FOB, cash equivalent</li><li>CIF, cash price of \$980 minus freight and insurance amount of \$100 = \$880</li><li>The DXP price = \$880 FOB, cash</li></ol>																																										
6. What information is needed to complete an import declaration for goods subject to measures?	<p>The information required by an importer or Customs broker to complete an import declaration for goods subject to IDD is:</p> <ul style="list-style-type: none"><li>DXP;</li><li>Dumping Specification Number (DSN) or exemption type (where appropriate);</li><li>Country (this is usually country of origin or export country);</li><li>Tariff classification and statistical code;</li><li>Exporter / supplier; and</li><li>Quantity.</li></ul> <p>Please see below to determine which DSN applies to the exporter of your goods.</p>																																										
7. What DSN do I use for my imported goods and what are the rates for my exporter?	<p>The following DSNs apply to goods from China and Malaysia and entered for home consumption on and after 9 May 2019.</p> <table><tr><th>Exporter</th><th>CCID</th><th>Description</th><th>Measure</th><th>Effective Rate of Duty</th><th>Export Terms</th><th>DSN</th></tr><tr><td colspan="7">China</td></tr><tr><td><u>Jiangsu Jacking Industry Ltd</u> supplied directly or through: <u>Jacking (China) Storage Systems Ltd</u> <u>Jacking (China) Storage Solutions</u></td><td>CFP7479333L CFG6997996E CFW6474779G CFL4949697N</td><td>All types</td><td>IDD</td><td>60.1%</td><td>FOB, cash</td><td>121</td></tr><tr><td><u>Dexion (Shanghai) Logistics Equipment Co. <p>10. What tariff classifications and statistical codes are covered by the anti-dumping measures? (continued)</p>	<p>These tariff classifications and statistical codes may apply to goods which are not subject to measures, may change because of amendments to the Working Tariff or the subject goods may be imported under tariff classification numbers that are not listed.</p> <p>The listing of this tariff classification and statistical code is for convenience or reference only and does not form part of the goods description. Please refer to the goods description for authoritative detail regarding goods subject to measures.</p> <p>Where importers are unclear on the correct tariff classification of their goods, it is recommended they check the <a href="#">Working Tariff page</a> on the ABF website or contact the ABF on 131 881.</p>																						
<p>11. What are the duty assessment importation and application period dates?</p>	<p>An importer of goods on which an IDD has been paid, may lodge an application with the Commissioner requesting that the Parliamentary Secretary make an assessment of the final liability of those goods to duty.</p> <p>This usually occurs when an importer considers that the IDD paid in respect of goods exceed the total amount payable (i.e. importers consider they are entitled to a refund of duties). In relation to IDD, an importer may consider that the dumping margin for the goods is now less than it was during the investigation period, or that its exporter is no longer dumping, and as a result it has paid more duty than it should have paid.</p> <p>There are a series of time frames fixed by legislation that govern the duty assessment system (referred to as importation periods). The duty assessment importation periods and application dates for steel pallet racking from China and Malaysia are as follows:</p> <table data-bbox="562 906 1525 1289"> <tr> <th>Importation Period</th><th>Application Period</th></tr> <tr> <td>8 May 2019 – 7 November 2019</td><td>8 November 2019 – 7 May 2020</td></tr> <tr> <td>8 November 2019 – 7 May 2020</td><td>8 May 2020 – 7 November 2020</td></tr> <tr> <td>8 May 2020 – 7 November 2020</td><td>8 November 2020 – 7 May 2021</td></tr> <tr> <td>8 November 2020 – 7 May 2021</td><td>8 May 2021 – 7 November 2021</td></tr> <tr> <td>8 May 2021 – 7 November 2021</td><td>8 November 2021 – 7 May 2022</td></tr> <tr> <td>8 November 2021 – 7 May 2022</td><td>8 May 2022 – 7 November 2022</td></tr> <tr> <td>8 May 2022 – 7 November 2022</td><td>8 November 2022 – 7 May 2023</td></tr> <tr> <td>8 November 2022 – 7 May 2023</td><td>8 May 2023 – 7 November 2023</td></tr> <tr> <td>8 May 2023 – 7 November 2023</td><td>8 November 2023 – 7 May 2024</td></tr> <tr> <td>8 November 2023 – 7 May 2024</td><td>8 May 2024 – 7 November 2024</td></tr> </table> <p>More information about duty assessments is available on the <a href="#">Anti-Dumping Commission website</a>.</p>	Importation Period	Application Period	8 May 2019 – 7 November 2019	8 November 2019 – 7 May 2020	8 November 2019 – 7 May 2020	8 May 2020 – 7 November 2020	8 May 2020 – 7 November 2020	8 November 2020 – 7 May 2021	8 November 2020 – 7 May 2021	8 May 2021 – 7 November 2021	8 May 2021 – 7 November 2021	8 November 2021 – 7 May 2022	8 November 2021 – 7 May 2022	8 May 2022 – 7 November 2022	8 May 2022 – 7 November 2022	8 November 2022 – 7 May 2023	8 November 2022 – 7 May 2023	8 May 2023 – 7 November 2023	8 May 2023 – 7 November 2023	8 November 2023 – 7 May 2024	8 November 2023 – 7 May 2024	8 May 2024 – 7 November 2024
