

Dumping Commodity Register

Aluminium Zinc Coated Steel

Exported from the People's Republic of China, the Republic of Korea and the Socialist Republic of Vietnam

Document release date	Brief description of change(s)
30 April 2018	Addition of dumping measures for Baoshan Iron & Steel Co. Ltd and Shanghai Meishan Iron & Steel Co. Ltd
18 July 2018	Amendment of measures following review.
6 August 2018	Measures varied following continuation Inquiry. Measures against Korea Removed.
14 December 2018	Addition of provisional measures for Zhejiang Huada New Material following the application of an accelerated review.
1 April 2019	Addition of measures for Zhejiang Huada New Material following the conclusion of an accelerated review 500.
16 July 2019	Addition of countervailing securities for Zhejiang Huada New Material following the initiation of an accelerated review.
16 October 2019	Addition of countervailing duty for Zhejiang Huada New Material following the conclusion of an accelerated review 519.
19 March 2021	Amendment to measures following a review of measures case 522
23 September 2021	Implementation of provisional measures for Aluminium zinc coated steel ($\geq 600\text{mm}$) from Korea and Vietnam
1 October 2021	Addition of Manufacturer/supplier relationship
24 November 2021	Addition of Manufacturer/supplier relationship
24 December 2021	Measures imposed following investigation 558
19 May 2022	Addition of Manufacturer/supplier relationship
12 July 2022	Addition of Manufacturer/supplier relationship

Note:

DCRs notify the outcomes of finalised investigations and should be read in conjunction with any relevant current investigations, such as reviews and inquiries. Please refer to the [Cases page](#) on the website to locate any current information for this commodity.

12. What are the duty assessment importation and application period dates?	10

Question	Response
<p>1. What countries do measures apply to?</p>	<p>Measures currently apply to goods from the People’s Republic of China (China).</p> <p>On 5 August 2013, with an effective date of 5 August 2013, anti-dumping measures in the form of interim dumping duties (IDD) and interim countervailing duties (ICD) were imposed on aluminium zinc coated steel exported from China and the Republic of Korea (Korea).</p> <p>On 17 July 2018, with an effective date of 6 August 2018, anti-dumping measures in the form of IDD were varied following a continuation inquiry on aluminium zinc coated steel exported from China. Measures on exports from Korea were not continued and expired on 5 August 2018. Anti-dumping measures in the form of interim countervailing duties (ICD) have also been varied on aluminium zinc coated steel exported from China.</p> <p>For more information please refer to the Final Report REP 450 and Anti-dumping Notice 2018/97.</p> <p>On 19 March 2021, with an effective date of 20 March 2021, anti-dumping measures were varied following a review of measures on Aluminium Zinc Coated Steel from China. For more information please refer to Final Report REP 522 and Anti-Dumping Notice ADN 2021/014</p> <p>On 24 December 2021, with an effective date of 25 December 2021, anti-dumping measures in the form of interim dumping duties (IDD) were imposed on Aluminium zinc coated steel ($\geq 600\text{mm}$) exported from the Republic of Korea (Korea) and the Socialist Republic of Vietnam (Vietnam). For more information please refer to Final Report REP 558 and Anti-Dumping Notice 2021/147</p>

<p>2. What types of aluminium Zinc Coated Steel are subject to anti-dumping measures?</p>	<p>The goods subject to measures for China include: Aluminium zinc coated steel that is:</p> <ul style="list-style-type: none"> • a flat rolled product of iron and non-alloy steel; • plated or coated with aluminium-zinc alloys; • whether or not surface treated including combinations of surface treatments; and • whether or not including resin coating. <p>Sizes</p> <ul style="list-style-type: none"> • in widths equal to or greater than 600mm. <p>The following descriptions are <u>excluded</u> from measures, exemption type “GOODS” applies to Aluminium zinc coated steel from China:</p> <ul style="list-style-type: none"> • Aluminium zinc coated steel that is painted or pre-painted (including colorbond). <p>The goods (relevant to ADN 2021/123) and apply to Aluminium zinc coated steel (≥600mm) exported from Korea and Vietnam: Flat rolled iron and steel products (whether or not containing alloys), of a width equal to or greater than 600 millimetres (‘mm’), plated or coated with aluminium-zinc alloys, not painted, and whether or not including resin coating.</p> <p>The following descriptions are <u>excluded</u> from measures, exemption type “GOODS” applies to Aluminium zinc coated steel (≥600mm) exported from Korea and Vietnam: Excluded from the goods description of this application is un-passivated (often referred to as unchromated) aluminium zinc coated steel. The amount of aluminium zinc coating on the steel is described as its coating mass and is nominated in grams per meter squared (g/m²), with the prefix being AZ (Aluminium Zinc). Common coating masses used are: AZ200, AZ150, AZ100, and AZ70.</p> <p>Ministerial Exemption Instrument No 3 of 2015 effective from 27 October 2014.</p> <ul style="list-style-type: none"> • Aluminium Zinc Coated Steel with a width of between 1,188mm and 1,212mm and a thickness of between 1.52mm & 1.68mm <p>For more information about the description of the goods subject to measures, please refer to the Final Report REP 450 and REP 558</p>
---	---

<p>2. What types of aluminium Zinc Coated Steel are subject to anti-dumping measures? (continued)</p>	<p><u>Please Note:</u></p> <ol style="list-style-type: none"> 1. When importing goods into the country importers are required to self-assess whether the imported goods meet the goods description outlined above and whether anti-dumping measures apply. 2. The Anti-Dumping Commission is not in a position to provide advice on whether certain goods meet the description above. 3. The use of exemption types is subject to monitoring by the Anti-Dumping Commission (the Commission) and the Australian Border Force (ABF).
<p>3. How much Interim Dumping Duties (IDD) and Interim Countervailing Duties (ICD) will an importer have to pay?</p>	<p><u>IDD – all exporters (except Nam Kim Steel ex Vietnam)</u></p> <p>IDD is in the form of a fixed and variable measure. The total IDD liability is calculated as follows:</p> <ul style="list-style-type: none"> • fixed component of IDD: dumping export price (DXP) or ascertained export price (AEP), whichever is the greatest, multiplied by the applicable IDD ad valorem duty rate; plus • variable component of IDD: the amount, if any, by which the DXP is lower than the AEP. <p><u>ICD – ‘all other exporters’ only (China)</u></p> <p>The ICD liability is calculated by multiplying the DXP by the ICD ad valorem duty rate.</p>
<p>4. Example of how to calculate the Interim Dumping Duties (IDD) and Interim Countervailing Duties (ICD) liability</p>	<p><u>Fixed and variable measures</u></p> <p>The following is an <u>example</u> of how to calculate the IDD and ICD liability.</p> <ul style="list-style-type: none"> • DXP = AUD \$1,000 (Free-On-Board (FOB), cash) • AEP = AUD \$2,000 (FOB, cash) • IDD ad valorem rate = 10% • ICD ad valorem rate = 15% <p><u>IDD liability</u></p> <p><u>Fixed component of IDD:</u> The higher of the DXP (\$1,000) or AEP (\$2,000) multiplied by the IDD ad valorem rate (10%) \$2,000 x 10% = \$200</p> <p><u>Variable component of IDD:</u> the amount, if any, by which the DXP (\$1,000) is lower than the AEP (\$2,000) \$2,000 - \$1,000 = \$1,000</p> <p>Total IDD liability: \$1,200 (\$200 + \$1,000)</p> <p>ICD liability: DXP (\$1,000) multiplied by the countervailing duty rate (15%) = \$150</p>

5. What is the dumping export price (DXP) and how do I calculate it?

The DXP refers to the actual export price of the exported goods. The DXP should reflect the total export (invoice) price of the goods being entered, not the unit price of the goods.

The DXP should be recorded on the relevant Full Import Declaration for the goods in the same terms as the AEP for the goods. Calculating the DXP may involve adjusting the actual export invoice price of the goods to the terms specified for the AEP.

For example, if the AEP terms are “FOB, cash” and the actual invoice terms of the goods are “CIF, 60 days, packed”, the following adjustments will need to be made in order to calculate the DXP at FOB, cash level.

- step 1 - an adjustment for interest on credit terms will need to be made; and
- step 2 - the overseas freight and insurance components will need to be subtracted from the export invoice price.

Where suitable evidence cannot be proffered by the importer of the interest rate, then 1.0% per month (0.033% per day) should be applied to the actual invoice price credit terms.

An example of adjusting for credit and incoterms is provided below:

- Invoice terms = CIF, 60 days
- Specified terms = FOB, cash
- Export price - invoice amount = \$1,000
- Marine insurance and ocean freight amount = \$100

Step 1 - adjust for credit terms

1. 1% per month interest rate should be applied to the invoiced price credit terms (i.e. 30 days = 1%)
2. If the invoiced CIF, 60 days price is \$1,000, then the CIF, cash price = \$980 (\$1,000 less 2%)

Step 2 - adjust for incoterms

1. Adjust for freight and insurance to calculate DXP at FOB, cash equivalent
2. CIF, cash price of \$980 minus freight and insurance amount of \$100 = \$880
3. The DXP price = \$880 FOB, cash

<p>6. What information is needed to complete an import declaration for goods subject to measures?</p>	<p>The information required by an importer or Customs broker to complete an import declaration for goods subject to IDD is:</p> <ul style="list-style-type: none"> • DXP; • Dumping Specification Number (DSN) or exemption type (where appropriate); • Country (this is usually country of origin or export country); • Tariff classification and statistical code; • Exporter / supplier; and • Quantity. <p>Please see below to determine which DSN applies to the exporter of your goods.</p>																																																																																
<p>7. What DSN do I use for my imported goods and what are the rates for my exporter?</p>	<p>The following DSNs apply to goods exported from China and entered for home consumption on or after 20 March 2021.</p> <table border="1" data-bbox="506 600 2033 1043"> <thead> <tr> <th>Exporter</th> <th>CCID</th> <th>Description</th> <th>Measure</th> <th>Effective Rate of Duty</th> <th>Ascertained Export Price</th> <th>Export Terms</th> <th>DSN</th> </tr> </thead> <tbody> <tr> <td colspan="8">China</td> </tr> <tr> <td><u>Jiangyin Zong Cheng Steel Co Ltd</u> Supplied directly or through: <u>Duferco Asia Pte Ltd</u> <u>Duferco SA</u></td> <td>CEA6994776C CEW6943696Y CFN693939W CCH374996W</td> <td>All types</td> <td>IDD</td> <td>21.6%</td> <td>Confidential</td> <td>FOB, cash</td> <td>60</td> </tr> <tr> <th>Exporter</th> <th>CCID</th> <th></th> <th>Measures</th> <th>Effective Rate of Duty</th> <th>Floor Price</th> <th>Export Terms</th> <th>DSN</th> </tr> <tr> <td><u>Zhejiang Huada New Materials Co. <u>All other exporters</u>		All types	IDD	13.1%	Confidential	FOB, cash	74		
Please Note:									
1. IDD, ICD ad valorem duty rates, floor price and AEP are considered confidential. Please see below on how importers can request the rates.									
2. The actual duty liability may be higher than the effective rate of duty published due to the variable component of IDD.									

<p>8. How do I find out the confidential rate and ascertained export price for my exporter?</p>	<p>The IDD/ICD ad valorem rate, floor price and the AEP for each DSN are considered confidential and will not be published.</p> <p>Importers of these goods may be provided with the confidential IDD ad valorem rate and the AEP, however the onus is on the importer to substantiate their commercial relationship with an exporter/supplier of their goods by providing evidence of:</p> <ul style="list-style-type: none"> • A previous trading history with a nominated exporter/supplier of the goods. Evidence of a trading history would take the form of at least commercial invoices, packing list and bills of lading from previous shipments; or • In the absence of a trading history, an offer or a quotation from an exporter/supplier of goods subject to dumping/countervailing measures. The offer or quotation must be on the exporter/supplier's company letterhead. <p>Requests and evidence should be sent to clientsupport@adcommission.gov.au</p> <p>Please note:</p> <ol style="list-style-type: none"> 1. Any requests for the confidential information that do not include sufficient evidence as outlined above will be rejected. 2. Only as much of the confidential information as is necessary to enter the goods will be provided. <p>The ABF will conduct monitoring of imports subject to anti-dumping measures consistent with its published policy.</p>
<p>9. Are there any exporters exempt from anti-dumping measures?</p>	<p>All exporters and suppliers of aluminium zinc coated steel from China are subject to IDD.</p> <p>All exporters and suppliers of aluminium zinc coated steel ($\geq 600\text{mm}$) from Korean and Vietnam are subject to IDD (except Nam Kim Steel Joint Stock Company – Vietnam).</p> <p>All exporters and suppliers of aluminium zinc coated steel from China are subject to ICD except Jiangyin Zong Cheng Steel.</p> <p>The 'all other exporters' rate of IDD and ICD will apply to exported goods unless an importer has evidence that the goods are being supplied either directly by a named exporter or through a linked supplier.</p>
<p>10. How long are the measures in place for?</p>	<p>The measures have been imposed for five years, unless revoked earlier.</p> <p>In the case of aluminium zinc coated steel from China the measures are in place until 5 August 2023.</p> <p>In the case of aluminium zinc coated steel from Korea and Vietnam the measures are in place until 23 December 2026.</p>

<p>11. What tariff classifications and statistical codes are covered by the anti-dumping measures?</p>	<p>Goods subject to measures should be classified using the tariff sub-headings and associated statistical codes below:</p> <table border="1" data-bbox="712 220 1444 343"> <thead> <tr> <th>Tariff subheading</th> <th>Statistical code</th> </tr> </thead> <tbody> <tr> <td>7210.61.00</td> <td>60, 61 & 62</td> </tr> <tr> <td>7225.99.00 (Korea, Vietnam)</td> <td>39</td> </tr> </tbody> </table> <p>These tariff classifications and statistical codes may apply to goods which are not subject to measures, may change because of am The listing of this tariff classification and statistical code is for convenience or reference only and does not form part of the goods description. Please refer to the goods description for authoritative detail regarding goods subject to measures.</p> <p>Where importers are unclear on the correct tariff classification of their goods, it is recommended they check the Working Tariff page on the ABF website or contact the ABF on 131 881.</p>	Tariff subheading	Statistical code	7210.61.00	60, 61 & 62	7225.99.00 (Korea, Vietnam)	39												
Tariff subheading	Statistical code																		
7210.61.00	60, 61 & 62																		
7225.99.00 (Korea, Vietnam)	39																		
<p>12. What are the duty assessment importation and application period dates?</p>	<p>An importer of goods on which an IDD has been paid, may lodge an application with the Commissioner requesting that the Parliamentary Secretary make an assessment of the final liability of those goods to duty.</p> <p>This usually occurs when an importer considers that the IDD paid in respect of goods exceed the total amount payable (i.e. importers consider they are entitled to a refund of duties). In relation to IDD, an importer may consider that the dumping margin for the goods is now less than it was during the investigation period, or that its exporter is no longer dumping, and as a result it has paid more duty than it should have paid.</p> <p>There are a series of time frames fixed by legislation that govern the duty assessment system (referred to as importation periods). The duty assessment importation periods and application dates for aluminium zinc coated steel from China are as follows:</p> <table border="1" data-bbox="577 1008 1541 1343"> <thead> <tr> <th>Importation Period</th> <th>Application Period</th> </tr> </thead> <tbody> <tr> <td>5 August 2019 – 4 February 2020</td> <td>5 February 2020 – 4 August 2020</td> </tr> <tr> <td>5 February 2020 – 4 August 2020</td> <td>5 August 2020 – 4 February 2021</td> </tr> <tr> <td>5 August 2020 – 4 February 2021</td> <td>5 February 2021 – 4 August 2021</td> </tr> <tr> <td>5 February 2021 – 4 August 2021</td> <td>5 August 2021 – 4 February 2022</td> </tr> <tr> <td>5 August 2021 – 4 February 2022</td> <td>5 February 2022 – 4 August 2022</td> </tr> <tr> <td>5 February 2022 – 4 August 2022</td> <td>5 August 2022 – 4 February 2023</td> </tr> <tr> <td>5 August 2022 – 4 February 2023</td> <td>5 February 2023 – 4 August 2023</td> </tr> <tr> <td>5 February 2023 – 4 August 2023</td> <td>5 August 2023 – 4 February 2024</td> </tr> </tbody> </table>	Importation Period	Application Period	5 August 2019 – 4 February 2020	5 February 2020 – 4 August 2020	5 February 2020 – 4 August 2020	5 August 2020 – 4 February 2021	5 August 2020 – 4 February 2021	5 February 2021 – 4 August 2021	5 February 2021 – 4 August 2021	5 August 2021 – 4 February 2022	5 August 2021 – 4 February 2022	5 February 2022 – 4 August 2022	5 February 2022 – 4 August 2022	5 August 2022 – 4 February 2023	5 August 2022 – 4 February 2023	5 February 2023 – 4 August 2023	5 February 2023 – 4 August 2023	5 August 2023 – 4 February 2024
Importation Period	Application Period																		
5 August 2019 – 4 February 2020	5 February 2020 – 4 August 2020																		
5 February 2020 – 4 August 2020	5 August 2020 – 4 February 2021
