OFFICIAL RECORD VERSION

YOUFA APPLICATION FOR REVIEW

.../3

- **Variable Factor Has Changed:**

- Clearly the current AEP of [REDACTED] fob Cash/tonne has changed from the Report No 177 being imposed.
- For Hot Dipped Galvanized pipes, YOUFA has provided TKM with valid price offers ranging from a minimum [REDACTED] [REDACTED] (effective cash /LC)
- At current US\$-A\$ exchange rates of circa 0.932, the A\$ FOB prices now range from [REDACTED] FOB per tonne, increases of from [REDACTED] per tonne FOB.
- For comparison purposes, the equivalent US\$ FOB price on the [REDACTED] was circa [REDACTED] at an exchange rate of 1.032.

- Applicant also wants NV Reviewed :

- Reasonable to assume that the NV has also changed from the original investigation period.
- Critical factors in the original investigation were the Hot Rolled coil (HRC)input cost for China pipe makers and the issue of a particular market situation resulting from alleged subsidy benefits.
- Due to well published and documented global price falls in steel making inputs of iron ore and coking coal –down circa 30%-and an assumed proportional cost reduction in Hot Rolled Coil Costs, the bench mark HRC substitute cost for China pipe makers would also have declined.
- YOUFA was not examined on its HRC pricing or on the question of any subsidy pass through benefits, but is fully prepared to provide evidenced data on these two major factors.
- In addition to the exchange rate variations on the US\$-A\$ pricing, the RMB –A\$ rate of [REDACTED] for the I.P has also changed to its current [REDACTED]

YOUFA is fully prepared to evidence its claims by responses to an EQ.

YOUFA APPLICATION FOR REVIEW

.../4

Conclusion:

YOUFA and [REDACTED] claim that it is evidentiary from other recent and relevant Investigations on HRC and HSS , that circumstances have changed from the original investigation period of July 2010 to June 2011, and that as a consequence, the variable factor of an A\$ AEP for 'YOUFA' has changed and, given the opportunity to examine its most contemporary domestic cost and pricing data, the current 'deemed' NV for YOUFA is most likely to have also changed.

Should the Commission consider it needs other 'causes' then please contact the writer, M J Howard.

Attached to this application are:

1. Application Form
2. An authority from YOUFA to represent.
3. YOUFA price offers to [REDACTED].

Thank you for your consideration,

M J Howard
