

Customs Act 1901 – Part XVB

Anti-Dumping Notice No. 2016/101

Zinc Coated (Galvanised) Steel

Exported from the People’s Republic of China and Taiwan

**Initiation of Reviews of Anti-Dumping Measures relating to
Chung Hung Steel Corporation; and
Yieh Phui (China) Technomaterial Co., Ltd**

Notice under subsection 269ZC(4) of the Customs Act 1901

I, Dale Seymour, the Commissioner of the Anti-Dumping Commission have initiated two reviews of the anti-dumping measures applying to zinc coated (galvanised) steel (the goods) exported to Australia from Taiwan and the People’s Republic of China (China). Each review will be limited to examining whether the variable factors relevant to the taking of the anti-dumping measures as they affect the particular applicant should be varied. The applicants are Chung Hung Steel Corporation (CHS) and Yieh Phui (China) Technomaterial Co., Ltd. (YPT).

Given that neither applicant is subject to the countervailing duty notice in relation to the goods, the reviews will only examine whether the variable factors relevant to the taking of dumping duty (in relation to CHS and YPT) have changed.

The Goods

The goods subject to anti-dumping measures, in the form of a dumping duty notice are:

“flat rolled products of iron and non-alloy steel, of a width less than 600mm and, equal to or greater than 600mm, plated or coated with zinc; and

flat rolled products of alloyed steel, of a width less than 600mm and, equal to or greater than 600mm, plated or coated with zinc exported from:

- *China by Angang Steel Co., Ltd or Benxi Iron and Steel (Group) International Economic & Trading Co., or*
- *Taiwan by Yieh Phui Enterprise Co., Ltd.”*

Goods identified as galvanised steel, as per the description above, are classified to the following tariff subheadings in Schedule 3 to the *Customs Tariff Act 1995*:

- 7210.49.00 statistical code 55, 56, 57 and 58;
- 7212.30.00 statistical code 61;
- 7225.92.00* statistical code 38*; and
- 7225.92.00* statistical code 71*.

*The last two tariff subheadings only apply to the following exporters/suppliers:

- Angang Steel Co. Ltd;
- Benxi Iron and Steel (Group) International Economic & Trading Co.; and
- Yieh Phui Enterprise Co., Ltd.

Painted galvanised steel, pre-painted galvanised steel, electro-galvanised plate steel and corrugated galvanised steel are not covered by the dumping duty notice.

Background to the measures

On 5 August 2013, the anti-dumping measures relevant to the applicants, in the form of a dumping duty notice (the original dumping duty notice) were initially imposed by the then Attorney-General in relation to the goods exported from China, Korea and Taiwan (Anti-Dumping Notice No. 2013/66 refers). The original dumping duty notice did not apply to Union Steel Co., Ltd from Korea; Sheng Yu Co., Ltd from Taiwan; and Ta Fong Steel Co., Ltd from Taiwan as the CEO of the Australian Customs and Border Protection Service had terminated the dumping investigation in respect of these exporters.

On 17 March 2016, the then Assistant Minister for Science and Parliamentary Secretary to the Minister for Industry, Innovation and Science (the then Parliamentary Secretary) accepted the Commissioner's findings and recommendations in *Anti-Dumping Commission Report Nos. 290 and 298* (REP 290 and 298) in relation to anti-circumvention inquiries. On 18 March 2016, a notice was published (Anti-Dumping Notice No. 2016/23 refers) on the Commission's electronic public record outlining the then Parliamentary Secretary's decision to alter the original dumping duty notice by amending the goods description to include alloyed galvanised steel exported from:

- China by Angang or Benxi Iron and Steel (Group) International Economic & Trading Co., or
- Taiwan by Yieh Phui.

Certain findings in relation to REP 290 and 298 are currently the subject of a review by the Anti-Dumping Duty Review Panel (ADRP). The ADRP review is ongoing and will be taken into consideration should the ADRP's review impact my current reviews of the dumping duty notice.

Recently initiated reviews

On 30 August 2016, the Commission initiated four reviews of the dumping duty notice in relation to the goods exported to Australia by Jiangyin Zongcheng Steel Co., Ltd, Angang Steel Company Limited, Synn Industrial Co., Ltd and Yieh Phui Enterprise Co., Ltd. Anti-Dumping Notice No. 2016/86 refers.

The current reviews

Two separate applications have been lodged by CHS and YPT under subsection 269ZA(1) of the *Customs Act 1901* (the Act) for reviews of the dumping duty notice in relation to the goods exported to Australia by those exporters.

Particulars of the reasons for the decisions to undertake these two reviews of measures are shown in *Anti-Dumping Commission Consideration Report No. 374 and 376*, which has been placed on the public record.

The review period is 1 July 2015 to 30 June 2016. The reviews will examine whether the variable factors relevant to the taking of dumping duty, in relation to the applicants, have changed.

At the conclusion of the review, I will recommend to the Assistant Minister for Industry Innovation and Science and Parliamentary Secretary to the Minister for Industry, Innovation and Science (the Parliamentary Secretary)¹ that the dumping duty notice:

- i. remain unaltered; or
- ii. have effect as if different variable factors had been ascertained.

If an affected party considers that it can provide evidence that may satisfy me that there are reasonable grounds for determining that anti-dumping measures are no longer warranted, that party may lodge an application² no later than **29 October 2016**³ to request that I consider that evidence to extend a review of anti-dumping measures to include revocation.

Future Reviews

Under subsection 269ZA(2), an application for a review must not be made earlier than 12 months after the publication of the dumping or countervailing duty notice or the notice declaring the outcome of the last review of the dumping or countervailing duty notice. Once a notice declaring the outcome of a review is published (regardless of the outcome), an application for a review of measures in relation to the dumping duty notice that is the subject of these reviews cannot be made for a period of 12 months.

Public Record

A public record must be maintained for reviews. The public record must contain, among other things, a copy of all submissions from interested parties.

¹ The Minister for Industry, Innovation and Science has delegated responsibility with respect to anti-dumping matters to the Parliamentary Secretary, and accordingly, the Parliamentary Secretary is the relevant decision maker. On 19 July 2016, the Prime Minister appointed the Parliamentary Secretary to the Minister for Industry, Innovation and Science as the Assistant Minister for Industry, Innovation and Science.

² In accordance with section 269ZCB of the Act.
