8. Provide a statement setting out the basis on which you consider the particular dumping or countervailing duty notice is inappropriate, so far as the applicant is concerned.

In relation to the Anti-Dumping Notice No. 2017/92, SCSC did not export such goods to Australia at any time during the investigation period, therefore, cannot participate or lodge in the investigation concerning the publication of the dumping duty notice. The dumping rate apply for the company is 11.9% based on the "Uncooperative and all other exporters rate" for security in Thailand. SCSC, therefore, seeks for the opportunity to review and has our own factors or aspects for duty determine. SCSC has no mean to threaten or harm the Australian industry by exporting the goods to Australia at dumped price and cause the material injury to the Australian industry.

#### **Impact of an all exporter review of measures**

Where a review of measures applies to all exporters of the goods generally (that is, not a single exporter), the changes to the notice(s) that result from the review may apply to all relevant exporters of the goods, including past applicants for an accelerated review. This means that changes to a notice as an outcome of an all exporter review of measures may replace an earlier published outcome of an accelerated review.

### Public Record

There is no legislative requirement to maintain a public record for accelerated reviews. However, in the interests of transparency, a public record for an accelerated review will be opened and accessible on the Commission's website at [www.adcommission.gov.au](http://www.adcommission.gov.au). The public record will contain, among other things, a copy of the application, all submissions from interested parties and Commission reports.
