

ANTI-DUMPING NOTICE NO. 2015/06

Aluminium Road Wheels

Exported from the People's Republic of China

Initiation of an Accelerated Review

Customs Act 1901 – Part XVB

I, Dale Seymour, the Commissioner of the Anti-Dumping Commission, have commenced an accelerated review of the anti-dumping measures applying to aluminium road wheels exported to Australia from the People's Republic of China (China), in so far as they relate to a new exporter, INOVIT (Suqian) Corp Ltd (Inovit).

The lodgement date of 19 December 2014 is the commencement date of the accelerated review.

The Goods

The goods subject to anti-dumping measures, in the form of a dumping and countervailing duty notices, are aluminium road wheels for passenger motor vehicles, including wheels used for caravans and trailers, in diameters ranging from 13 inches to 22 inches ("the goods").

The goods subject to the measures include finished or semi-finished aluminium road wheels whether unpainted, painted, chrome plated, forged or with tyres and exclude aluminium road wheels for go-carts and All-Terrain Vehicles.

The goods are currently classified to the tariff subheadings:

- 8708.70.91 (statistical code 78);
- 8708.70.99 (statistical code 80); and
- 8716.90.00 (statistical code 39)

of Schedule 3 to the *Customs Tariff Act 1995*. These goods are subject to 4% Customs duty.

Existing measures

The anti-dumping measures were initially imposed by public notice on 5 July 2012 by the then Minister for Home Affairs following consideration of the *International Trade Remedies Report No 181* (REP 181). These measures are applicable to all exporters of aluminium

road wheels from China with the exception of Zhejiang Shuguang Industrial Co. Ltd (dumping and countervailing duties) and CITIC Dicastal Wheel Manufacturing Co Ltd (countervailing duties).

The duty that had been determined was an amount worked out in accordance with the combination of fixed and variable duty method.

The current review

On 19 December 2014, Inovit lodged an application under s. 269ZE of the *Customs Act 1901* (the Act) for an accelerated review of the dumping and countervailing duty notices in relation to the goods exported to Australia from China by Inovit.

Following consideration of the application, I have decided not to reject the application. Further detail on the consideration of the application is contained in the *Anti-Dumping Commission Consideration Report No.280* (CON 280).

Having regard to the expedited nature of an accelerated review, the Anti-Dumping Commission (the Commission) considers that an accelerated review is not the mechanism to reassess certain aspects of the anti-dumping measures applying to aluminium road wheels. In particular, this accelerated review will not reassess the finding of whether or not a market situation exists such that sales in that market are not suitable for use in determining normal value as specified in REP 181.

After concluding the accelerated review a recommendation will be made to the Minister for Industry and Science (the Minister) that the dumping and countervailing duty notice:

- i. remain unaltered; or
- ii. be altered so as not to apply to the applicant; or
- iii. be altered so as to apply to the applicant as if different variable factors had been fixed.

If recommending to the Minister that different variable factors be applied to the applicant, I may propose a change in the method to determine the duty. The amount could be worked out in accordance with the combination of the fixed and variable duty method, the floor price duty method, the fixed duty method, or the *ad valorem* duty method.

Public Record

There is no legislative requirement to maintain a public file for accelerated reviews. However, in the interests of transparency, a public file for this accelerated review has been opened and may be examined at the Anti-Dumping Commission's office by contacting the case manager on the details provided below. Alternatively, the public record is accessible at www.adcommission.gov.au.

The public record will contain, among other things, a copy of the application, CON 280, and submissions from interested parties.

Securities

I have made a declaration under paragraph 269ZH(b) of the Act to ensure securities are taken for the period of the review in respect of interim dumping and countervailing duty

that may be payable on importation of aluminium road wheels for the period of the review. The effective rate of duty has been determined in accordance with the combination of fixed and variable duty method.

Lodgment of submissions

Interested parties are invited to lodge written submissions no later than the close of business on **1 March 2015**, addressed to:

The Director Operations 3,
Anti-Dumping Commission
