

RESPONSE TO APPLICATIONS FOR EXEMPTION FROM DUTY UNDER THE CUSTOMS TARIFF (ANTI-DUMPING) ACT 1975

Exemption inquiries EX0043 and EX0044 – response requested by 11 March 2016

1 Introduction

The Anti-Dumping Commission (the Commission) requests your response to applications for exemption from anti-dumping and countervailing measures under the *Customs Tariff (Anti-Dumping) Act 1975* (the Dumping Duty Act).

Sections 8(7) and 10(8) of the Dumping Duty Act allow the Minister to exercise discretion to exempt goods from measures, where he or she is satisfied that a Tariff Concession Order (TCO) under Part XVA of the *Customs Act 1901* in respect of the goods is in force.

The Commission has received applications for exemption from anti-dumping and countervailing measures in respect of Hollow Structural Sections for the goods described at section 5 of this form ('the exemption goods').

You have been identified from the Commission's investigation in respect of hollow structural sections (HSS) as an Australian producer of the goods.

The Commission seeks your assistance in these exemption inquiries by responding to the questions in this form. The Commission will use the information you provide in its assessment as to whether exemptions from dumping and countervailing duty may be recommended to the Parliamentary Secretary to the Minister for Industry and Science (as the relevant delegate of the Minister).

2 Measures on Hollow Structural Sections

In June 2012, the Commission completed an investigation (original investigation) into the alleged dumping and subsidisation of HSS exported to Australia from the Republic of China (China), the Republic of Korea (Korea), Malaysia and Taiwan.

The then Minister for Home Affairs accepted the Commission's recommendations that HSS from China, Korea, Malaysia and Taiwan had been dumped and subsidised and that dumping and subsidisation had caused material injury to the Australian industry. Dumping and countervailing duty notices were published notifying of this decision on 3 July 2012.

Anti-Dumping Notice (ADN) No. 2012/31 contains details of the measures, including a description of the goods subject to the measures.

The reasons for the Minister's decision in this case are contained in the then International Trade Remedies Branch's Final Report No. 177 (REP 177).

3 Application for Exemption from Measures

On 17 December 2015 and 31 December 2015, ThyssenKrupp Mannex, wrote to the Commission requesting exemptions from measures in relation to its imports of certain HSS products. The Commission has accepted the applications and will now undertake an examination of the applications to determine whether it should recommend the requested exemptions.

4 Exemption Provisions

The Dumping Duty Act allows the Minister to exercise his or her discretion to exempt goods from dumping and/or countervailing duties in the following circumstances.

Subsection 8(7)

The Minister may, by notice in writing, exempt goods from interim dumping duty and dumping duty if he or she is satisfied:

- (b) that a Tariff Concession Order under Part XVA of the *Customs Act 1901* in respect of the goods is in force

Subsection 10(8)

The Minister may, by notice in writing, exempt goods from interim countervailing duty or countervailing duty if he or she is satisfied:

- (aa) that a Tariff Concession Order under Part XVA of the *Customs Act 1901* in respect of the goods is in force;

We note that these exemption provisions are subject to the discretion of the Minister and are not automatically granted where the criterion set out in the provision are met.

5 The goods subject to the exemption applications

The goods the subject of the exemption inquiries (the exemption goods) are HSS meeting specific characteristics described in TCO numbers TC 1332191 (EX0043) and TC 1439520 (EX0044).

Details of the relevant TCOs, including the descriptions of the exemption goods, can be found in the Tariff Concession Gazette on the website of the Department of Immigration and Border Protection.

Goods produced in Australia

The applicant claims that valid TCOs now exist for the exemption goods, namely TC 1332191 and TC 1439520. TCOs are made on the basis that substitutable goods are not produced in Australia.

6 Instructions on completing this 'Response to the Exemption Application'

The Commission's original investigation identified your company as an Australian producer of HSS.

Consequently, the Commission has forwarded you this 'response to exemption application' (the response) to provide you with the opportunity to participate in this exemption inquiry.

The Commission will use the information provided by Australian producers to determine Australian industry's views on the TCOs that form the bases of the applications.

Due date for the response

We request that you complete your response and return it to the Commission by no later than the close of business on **11 March 2016**.

Responses may be lodged either by mail or by email to the following.

Director Operations 5

Verification of the information that you supply

The Commission may seek to verify some all of the information supplied in the response. The Commission may request evidence to support the claims such as quotations and offers of sale.

An onsite visit by the Commission may be required in some cases. A report will be prepared of visits conducted and a non-confidential version will be placed on the public record.

There is no legislative timeframe for completion of an exemption inquiry, however a recommendation to the Parliamentary Secretary will be made as soon as practicable after obtaining all relevant information.

Confidential and non-confidential submissions

We request that you also lodge a non-confidential version of your response suitable for placement on the public record. The Commission puts greater weight on submissions that are available to other interested parties for comment.

Please ensure that each page of information you provide is clearly marked either "FOR OFFICIAL USE ONLY" or "PUBLIC RECORD".

All information provided to the Commission in confidence will be treated accordingly. The non-confidential version of your submission will be placed on the public record.
