## **Existing measures**

Anti-dumping measures in relation to exports of the goods to Australia from China were initially imposed by public notices (a dumping duty notice and a countervailing duty notice) on 28 October 2010 by the then Attorney General following consideration of *Trade Remedies Branch Report No. 148*, and applied to all exporters of aluminium extrusions from China, with the exception of Tai Ao Aluminium Tai Shan Co. Ltd.

On 19 August 2015, following a review of measures (*Anti-Dumping Commission Report No. 248* refers), the then Assistant Minister for Science and Parliamentary Secretary to the Minister for Industry, Innovation and Science (the then Parliamentary Secretary) published a notice declaring that the public notices published on 28 October 2010 are to be taken to have effect as if different variable factors had been fixed.

On 20 October 2015, following a continuation inquiry (*Anti-Dumping Commission Report No. 287* refers), the then Parliamentary Secretary published a notice declaring that the dumping duty notice and countervailing duty notice continue in force from 28 October 2015.

## **The current review**

On 14 December 2016, Jiawei lodged an application under subsection 269ZE(1) of the *Customs Act 1901* (the Act) for an accelerated review of the dumping duty notice and the countervailing duty notice in relation to its exports of the goods to Australia from China.

Following consideration of the application, I have decided not to reject the application. Further detail on the consideration of the application is contained in *Anti-Dumping Commission Consideration Report No. 387* (CON 387).

After concluding the accelerated review, I will make a recommendation under subsection 269ZG(1) of the Act to the Assistant Minister for Industry, Innovation and Science and the Parliamentary Secretary to the Minister for Industry, Innovation and Science (the Parliamentary Secretary)<sup>1</sup> that the dumping duty notice and the countervailing duty notice:

- (i) remain unaltered; or
- (ii) be altered so as to apply to the applicant as if different variable factors had been fixed.

If recommending to the Parliamentary Secretary that different variable factors be applied to the applicant, I may propose a change in the method to determine the interim dumping duty and interim countervailing duty. The available methods for determining the interim dumping duty are outlined in section 5 of the *Customs Tariff (Anti-Dumping) Regulation 2013*. The available methods for determining interim countervailing duty are outlined in subsection 10(3B) of the *Customs Tariff (Anti-Dumping) Act 1975*.
