Subject: RE: Alleged dumping of newprint from Korea - Jeonju Paper - letter of authority [SEC=UNCLASSIFIED]

Dear Mr Zhan,

Further to your request for an extension to 23 June 2014, the Anti-Dumping Commission has considered this request and approves a two week extension from the original due date of 29 May 2014. The exporter questionnaire response is now due on Thursday 12 June 2014. The Anti-Dumping Commission has granted this extension on the basis that a further extension resulting from critical deficiencies arising from the exporter questionnaire response will be unlikely.

Kind regards

Tom O'Connor

Subject: Alleged dumping of newprint from Korea - Jeonju Paper - letter of authority

Dear Tom

Please find attached a letter of authority from our client Jeonju Paper Corporation authorising us to act on its behalf in this matter. We would be grateful if you could please direct all communications relating to our client to us in the first instance.

Through the ADC's public record, Jeonju Paper understands that the current due date for the submission of EQ response is 29 May 2014. Jeonju Paper respectfully requests an extension of time to complete and lodge its Exporter Questionnaire ("EQ") response with the Commission.

There are a number of reasons for this request:

- 1 the company advised that it has only come to knowledge about the investigation and the EQ through its contacts in Australia recently, it has not been contacted by the ADC regarding this matter;
- 2 there are three national holidays in Korea during the this period, on 5 and 6 of May, and 6 June;
- 3 the EQ preparation is likely to be interrupted by the month-end account closing activities;

In view of these impediments, and in order to provide a careful and comprehensive response, Jeonju Paper requests an extension of time to 23 June.

Lastly, although Jeonju Paper has recently obtained a copy of the EQ from the ADC's public record, to avoid doubt, could the ADC please also forward to us a copy of the EQ applicable to Jeonju Paper in this matter as soon as possible.

Kind regards

Charles Zhan
