

7 March 2014

Ms Joanne Reid
Director, Operations 2
Anti-Dumping Commission
Customs House
5 Constitution Avenue
CANBERRA ACT
2601

Dear Ms Reid

Application for exemption in respect of zinc coated (galvanised) steel anti-dumping and countervailing measures (ADN 2014/16)

OneSteel hereby makes a submission with regards to the Anti-Dumping Notice ADN 2014/16 issued on 26th February 2014.

Section 8 (7) (b) of the Customs Tariff Anti-Dumping Act 1975 states that 'The Minister may, by notice in writing, exempt goods from interim dumping duty and dumping duty if he or she is satisfied: that a Tariff Concession Order under Part XVA of the Customs Act 1901 in respect of the goods is in force'.

For the exemption application in question, it is a reasonable expectation that the exemption would be applicable from the operative date of the TCO as that is the date on which it has been established that there are no substitutable goods produced by the Australian industry.

OneSteel understands that the decision on the timing for an exemption to take effect is at the discretion of the Parliamentary Secretary and would like to emphasise the importance that this date coincides with the operative date for TC1328432 which is 20 August 2013.

If you have any questions concerning this letter please do not hesitate to contact Mr Matt Condon of OneSteel on (02) 8424 9880.

Yours sincerely

Matt Condon
