Anti Dumping Commission

1010 La Trobe Street,

Docklands VIC 3008

Australia.

16th May 2014.

Attention Kerry Taylor.

Submission (NON CONFIDENTIAL) in relation to AD2014/28 EX0018 H.R. PLATES IMPORTED FROM JAPAN, KOREA , CHINA , INDONESIA.

We have no objection to Bluescope Steel's response dated 30th April 2014.

Our original request for exemption was lodged with Customs on the 19th August 2013. We were advised our request would not be investigated until after the plate dumping case had been completed. Adsteel continued to import these goods from China during the plate dumping investigation and have paid dumping duty on those goods. If a decision is made to exempt the goods (and I understand this is at the discretion of the AD Commission) we request this be made retrospective to the date of our original application in 2013.

Yours Sincerely,

Robert Buchanan.

Director.
