Anti-Dumping
Commission

Exemption EX0091

File note: correspondence with Orrcon Pty Ltd

The Anti-Dumping Commission (the commission) is currently conducting exemption inquiry EX0091. EX0091 is about certain precision pipe and tube steel exported to Australia from the People's Republic of China and the Republic of Korea.

In this inquiry the sole Australian industry member is Orrcon Pty Ltd (Orrcon). Orrcon provided a complete response to the Australian industry questionnaire, where they stated they did not object to the Minister for Industry and Science (the Minister) granting the exemption. However, Orrcon requested the addition of tolerances around the length of the products, and the thickness of the tube walls.

In correspondence with the commission on 8 August 2022, Orrcon has rescinded their request for the addition of tolerances to the exemption descriptions. Orrcon continues to not object to the Minister granting the exemption.
