

ANTI-DUMPING NOTICE NO. 2014/129

Certain aluminium extrusions

Exported from the People's Republic of China

Termination of Accelerated Review of Anti-Dumping Measures

Customs Act 1901 – Part XVB

On 11 September 2014, I, Dale Seymour, the Commissioner of the Anti-Dumping Commission, initiated an accelerated review of the anti-dumping measures applying to certain aluminium extrusions exported to Australia from the People's Republic of China in so far as they relate to Huzhou Dulun Metal Products Co., Ltd. (Dulun).

A declaration under subsection 269ZH(b) of the *Customs Act 1901* (the Act) was made to ensure securities in respect of interim dumping duty and countervailing duty that may be payable on exports by Dulun of certain aluminium extrusions were taken for the period of the review.

Anti-Dumping Notice (ADN) No. 2014/88 was published to notify interested parties of the accelerated review is available at www.adcommission.gov.au.

Termination Grounds

During the accelerated review Dulun failed to provide a complete response to the exporter questionnaire within an adequate timeframe.

I am satisfied that Dulun's failure to provide a substantially compliant response to the exporter questionnaire amounts to a refusal to co-operate with an aspect of the accelerated review and I have, for that reason, terminated the accelerated review in accordance with subsection 269ZE(3) of the Act.

Termination Report No. 265, which contains further details on this matter, is available on the Anti-Dumping Commission's (the Commission's) public record and is accessible at www.adcommission.gov.au.

Effect of the termination of the accelerated review

Termination of this accelerated review means that securities taken on certain aluminium extrusions exported by Dulun and entered for home consumption in the period 12 August 2014 to 20 November 2014 will now be converted to interim dumping duty and countervailing duty.

The effective rates of duty are at the 'all other exporters' rate specified in the dumping duty and countervailing duty notices published by the Commission on 28

October 2010. These rates can be found on the Commission's website and are accessible at www.adcommission.gov.au. Future exports of certain aluminium extrusions by Dulun will also be subject to this duty rate.

Enquiries about this notice may be directed to the case manager on telephone number +61 3 9244 8225, fax number +61 3 9244 8902 or email operations4@adcommission.gov.au.
