Dear Sir/Madam,

Exemption Investigation No. 0066 – HDAN exported from the Russian Federation

I refer to the application by Nitro Sibir Australia ("NSA") seeking an exemption on imported high density ammonium nitrate ("HDAN") from the Russian Federation ("Russia").

Queensland Nitrates Pty Limited ("QNP") is an Australian manufacturer of like goods to imported HDAN from Russia. QNP is therefore opposed to the granting of an exemption from dumping duties for HDAN imported from Russia that is used in the manufacture of emulsion explosives.

QNP has completed the attached Response to the Exemption Application. Supporting information in the form of sales information and sales invoices are strictly confidential to QNP and are not for viewing other than by the Anti-Dumping Commission.

If you have any questions concerning the attached response, please do not hesitate to contact me on (07) 4997 5100 or QNP's representative Mr John O'Connor on (07) 3342 1921.

Regards
