Subject: Case EX0015 HSS Exported from China, Korea, Malaysia and Taiwan

Dear Case officer,

I have a client who this case effects so I have been monitoring the outcome. I note on your website that Onesteel has advised they do manufacture the goods that the exemption is being applied for.

My client MAS approached Onesteel trading as Midalia steel for these goods and was advised that the do not manufacture these goods in Australia and that the goods would need to be imported.

Please find attached the quote and below correspondence from the Branch Manager at Midalia steel. As you can see his quote states Onesteel at the bottom and the Mill cert that was provided is from a mill in the UAE.

As you can see this contradicts what has been provided to you.

I thought this information was prudent to your investigation.

Kind Regards

Jerome Gallagher | Corporate Account Manager

Hi mate, Midalia is the same company as onesteel, if you don't have an account when you ring onesteel, they put you through to midalia, attached shows the test report from overseas and he states it below,
Cheers,

Steve Boughen

Steve cert attached and I have confirmation that the product is hot dipped galvanized, and it would be an imported product.

Regards

Mike

Hi again mate,

Also can you please confirm HDG (Hot Dipped Galv), any chance we can get a copy of a mill certificate so we can confirm exactly same spec as we require and also can you please advise is this local produce or import?

Thanks very much in advance,

Steve Boughen

G'day Mike,

Thank-you for the quote. Obviously that was for the 690 sling order, can you let me know how much the price would change for say orders of 60 slings at a time? The reason I ask is we haven't been awarded the larger job as yet, and in the meantime may need to top up our local stock anyway and 60 slings is my usual buy. Thanks mate, even approx. would be OK for the purpose of the exercise.
Cheers again.
