**RE: Revocation of measures – sodium bicarbonate**

**Dear Sir/Madam,**

As you are aware Orica Australia Pty Ltd has applied for revocation of anti dumping measures for sodium bicarbonate. The only Australian manufacturer of the chemical, Penrice Soda Holdings, ceased operations on the 24<sup>th</sup> June 2014.

Following the closure of the Penrice Soda Holdings operations at the Osborne site there is no current injury to Australian industry, and there is unlikely to be a recurrence of injury if the measures were to be revoked. A competitive price for sodium bicarbonate will benefit the local agricultural industry and therefore Orica is passing on the full benefits of the revocation of measures immediately to customers. Please see the attached confidential spread sheet containing pricing calculations and confidential example purchase order.

We would therefore ask that consideration be given to the revocation of measures being back dated to the date the review commenced.

Yours Sincerely,

A handwritten signature in dark ink, appearing to read "Craig Clarke", is written over the typed name.

Craig Clarke.
