Dear Director,

I am writing on behalf of Guangdong Zhongya regarding the Antidumping Notice No. 2017/144, Guangdong Zhongya will cooperate with the Commission in this new case to avoid any potential risk of adverse result.

However, Guangdong Zhongya believes that this new investigation No. 2017/144 is inconsistent with WTO Antidumping Agreement, it violates the second sentence of Article 5.8 of WTO Antidumping Agreement. Guangdong Zhongya noted that the Goods under Consideration in this new investigation is the exactly the same as the current on-going case of Aluminium Extrusions in which Guangdong Zhongya obtained the zero dumping margin and was excluded from the dumping order. According to the Article 5.8 of WTO Antidumping Agreement, this new investigation against Guangdong Zhongya should be immediately terminated by the Commission.

Best regards,
