**Subject : Request for revoking Anti-dumping measures**

---

**Dear Sir / Madam,**

**We are a manufacturer who produces white Coated Duplex Board paper in Korea and exporting our board paper to overseas markets, but our products are under a regulation of anti-dumping duty, 21.8%, in Australia now.**

**However, from our export sales record during the past three years, we have not experienced ever to Australia market before, and have tried to sell our products at market sales prices in other markets. And, we heard that the one and only Duplex Board manufacturer in Australia, Amcor, announced their business will be closed within the 2nd half of this year (Attached announcement, 18 Feb. 2013). So we have reached that this Anti-dumping measures will not be valid anymore because of the two reasons above mentioned, and now request your consideration of revoking the measures.**

**Hopefully, there will be a reasonable conclusion from you soon, and wish to get the chance to do a sales activity in a new market.**

**Sincerely,****Dong-Won, Jung**  
**Executive Director****SHINPOONG PAPER MFG. CO.,LTD.**
