Dear Sir/Madam

Exemption Investigation No. 0066 – HDAN exported from the Russian Federation

I refer to the application by Nitro Sibir Australia (“NSA”) seeking an exemption on imported high density ammonium nitrate (“HDAN”) from the Russian Federation (“Russia”).

CSBP Limited (“CSBP”) is an Australian manufacturer of ammonium nitrate (“AN”) at its Kwinana site in Western Australia. At this site, CSBP manufactures AN that is considered a like good to imported HDAN from Russia. CSBP is opposed to the granting of an exemption from dumping duties for HDAN imported from Russia that is used in the manufacture of emulsion explosives.

CSBP has completed the Response to the Exemption Application (See attached). CSBP has also included confidential sales information evidencing sales of locally produced like goods through the most recent twelve month period. This information is commercially sensitive to CSBP and is provided to the Anti-Dumping Commission on a “commercial-in-Confidence” basis.

If you have any questions concerning the attached response, please do not hesitate to contact me on (08) 9411 8593 or CSBP’s representative Mr John O’Connor on (07) 3342 1921.

Yours faithfully

A handwritten signature in blue ink, appearing to read "Gerard Chan", with a long horizontal flourish extending to the right.
