GLASS INTERNATIONAL

— ASIA PACIFIC

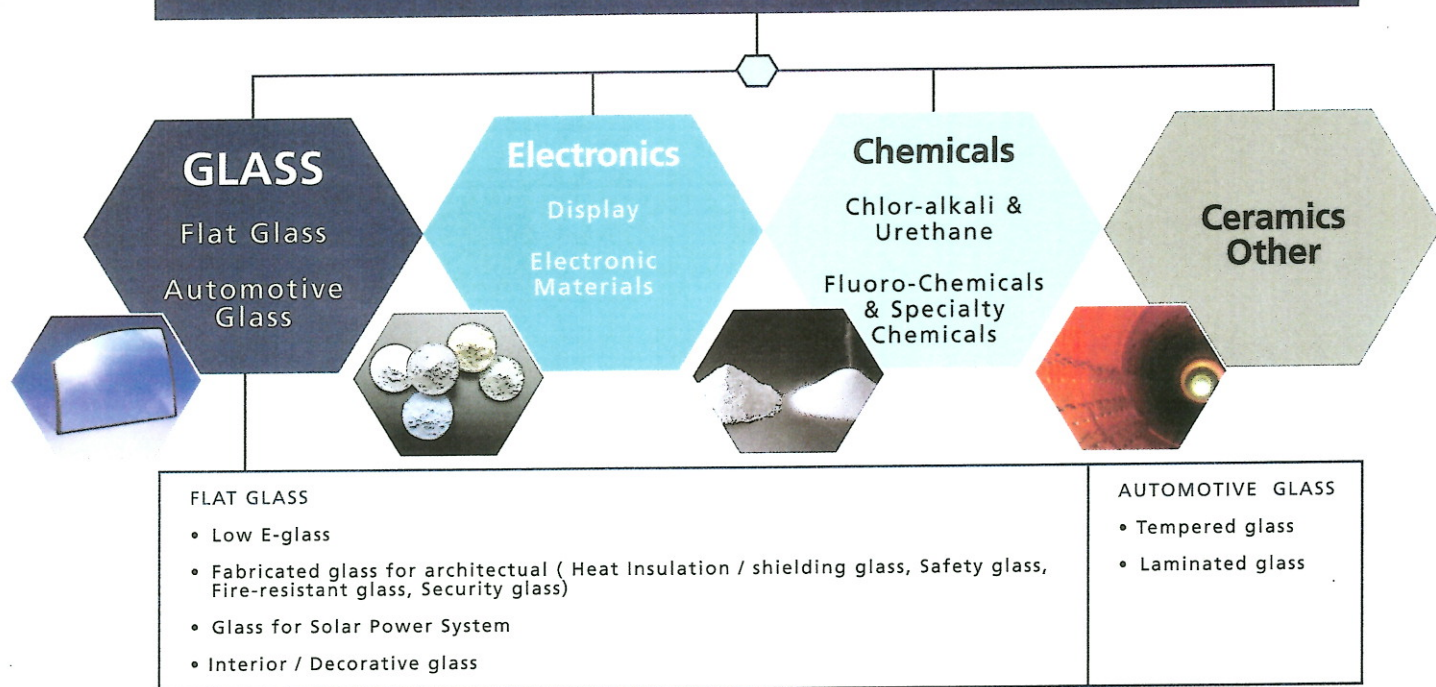

# AGC Group

The AGC Group, with its head office Asahi Glass Co., Ltd. in Tokyo, is a world-leading supplier of flat, automotive and display glass, chemicals and other high-tech materials and components. Drawing on more than a century of technical innovation, the AGC Group has developed world-class expertise in fields including glass, chemistry and ceramics technologies.

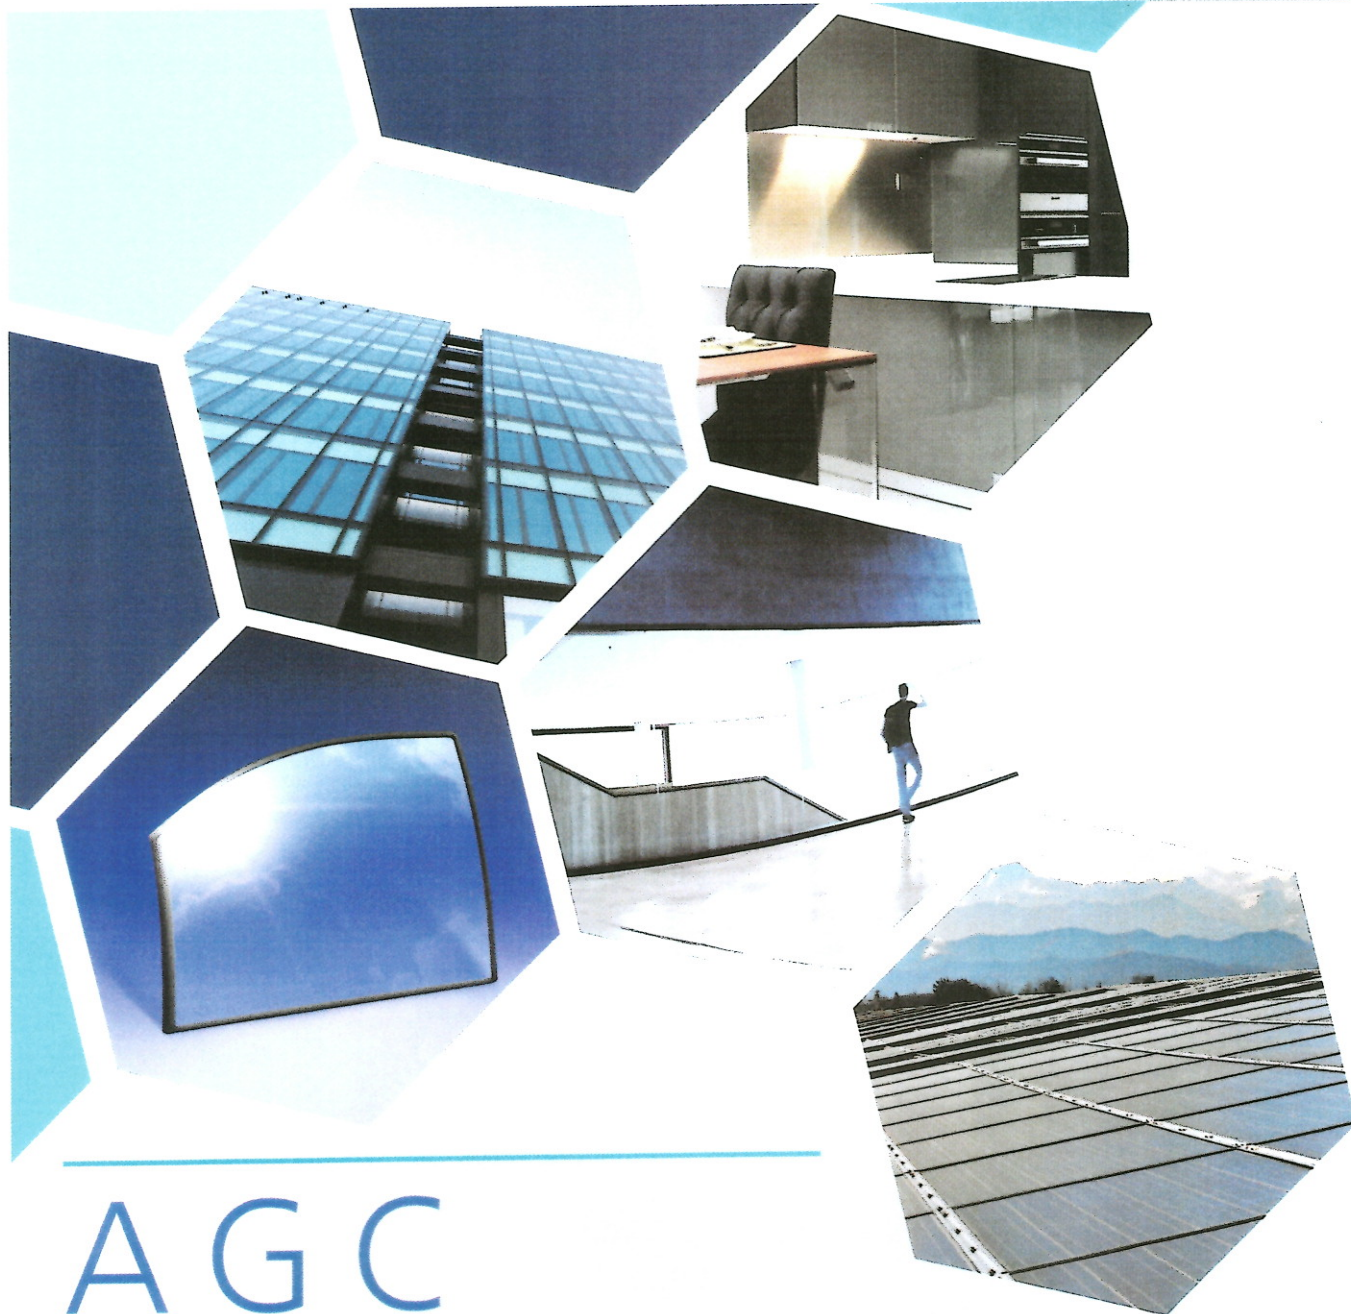

The group has a total of 200 subsidiaries and more than 50,000 employees worldwide. It generates annual sales of approximately USD13 billion through business in about 30 countries.

# AGC GROUP BUSINESS OVERVIEW

# AGC Glass Company

| A DIVISION OF AGC GROUP |

AGC Glass Company's operations consist of businesses centered on the fields of flat glass and automotive glass. In the flat glass business, AGC offers an array of flat glass products that meet the needs of each region: float glass, fabricated glass for architectural use, decorative glass, glass for solar power systems and other products.

The Group's flat glass and automotive glass (new vehicle market) business holds a leading share of the world market, and operates under AGC Glass Company in three regions of Japan/Asia, Americas and Europe.

# AGC Asia Pacific

| A SUBSIDIARY OF AGC GLASS COMPANY |

Situated in Singapore, AGC Asia Pacific Pte. Ltd. (Flat Glass Business Division) is responsible for all sales & marketing activities in the Architectural, Automotive and Industrial products for Asia Pacific region.

With the AGC Group's experience & expertise in the Flat Glass industry, we offer our customers a wide range of world-class products and solutions for all their glass needs.

We cater our expertise to developers, architects, consultants, processors and end-users. Our staff are committed and continuously trained with the necessary knowledge to handle concerns pertaining to products, technical solutions and customer services.

---

# Vision

To be the "Best Recognized"  
supplier of flat glass products  
in the world.

---

---

# Mission

To deliver to our customers, in advanced and fast-growing markets, commodity and value-added products with appropriate quality, service & cost.

To be the leader in glass processing for selected building and industrial segments.

To be "Best Recognized," we strongly emphasise innovation and care for the environment in our corporate culture.
