

## File Note

**Case Name:** Alleged Dumping & Subsidisation of Silicon Metal from China

**File No:** 237

The Anti-Dumping Commission (the Commission) contacted all known exporters of silicon metal from China and provided exporter questionnaires to those that indicated they would like to participate in the investigation. Many of those contacted advised they were traders and the Commission sought contact details for the relevant manufacturers.

Some exporters requested an extension to prepare Part 2 of the questionnaire response after providing a completed response to Part 1 and an extension was granted on the following conditions:

- confidential and non-confidential copies of the response to the questionnaire are both submitted by the extension date;
- that the responses submitted are substantially complete and accurate, able of being verified by the Commission; and
- that the company agrees to a verification visit by the Commission shortly after submission of the questionnaire response where teams are available.

The latest due date granted is 9 April 2014. There will be no further extensions beyond this date.

The following exporters have indicated they will participate in the investigation:

<b>Exporter</b>	<b>Questionnaire response due date</b>
Yunnan Baoshan Keyuan Silicon & Electricity Co., Ltd	26/3/2014
Hua'an Linan Silicon Industrial Co.,Ltd	9/4/2014
Guizhou Liping Linan Silicon Industrial Co.,Ltd	9/4/2014
Xiamen K Metal Co Ltd	27/3/2014

**Date:** 26 March 2014
