Dumping and Subsidisation Investigation - aluminium extrusions from Malaysia and Vietnam

Goods Covered by the Investigation

The goods the subject of this application are:

Aluminium extrusions that:

- ▶ are produced by an extrusion process;
- ▶ are of alloys having metallic elements falling within the alloy designations published by The Aluminium Association commencing with 1, 2, 3, 5, 6 or 7 (or proprietary or other certifying body equivalents);
- ▶ have finishes being:
 - ▶ as extruded (mill);
 - ▶ mechanically worked
 - ▶ anodized; or
 - ▶ painted or otherwise coated, whether or not worked;
- ▶ have a wall thickness or diameter greater than 0.5 mm;
- ▶ have a maximum weight per metre of 27 kilograms; and
- ▶ have a profile or cross-section fitting within a circle having a diameter of 421 mm".

The goods under consideration include aluminium extrusion products that have been further processed or fabricated to limited extent, after aluminium has been extruded through a die. For example, aluminium extrusion products that have been painted, anodised, or otherwise coated, or worked (e.g. precision cut, machined, punched or drilled) fall within the scope of the goods.

The goods under consideration do not extend to intermediate or finished products that are processed or fabricated to such an extent that they no longer possess the nature and physical characteristics of an aluminium extrusion, but have become a different product.

PMAA is the same

→ We've got 2 dies with them + have ordered from them + SAME PRICING!! etc

(ALUMAC better for:-
→ service + contact
→ delivery (on time + all there)
→ quality of products
→ reliability
→ price NOT much different)

(no "split" orders!!)

We are a small Australian manufacturing company (one of the last, if not the last, in our field) and we import our own unique, raw aluminium profiles from Malaysia and then manufacture our tools from these in Melbourne, Australia. We do all the manufacturing processes ourselves. We are a registered AUSTRALIAN MADE Company. We also do our own sales and marketing, and we do our own distribution to over 250 shops throughout Australia and have exported our tools to the US for the last 3 years. CAPRAL put in an
