On 10 November 2016, the timeframe for consideration of these reviews was extended under subsection 269ZHI(1) of the *Customs Act 1901* (the Act), to enable the reviews to be combined into a single statement of essential facts (SEF) and final report. ADN 2016/122 refers.

To enable me to complete verification of exporters' data, I have requested a second extension of time under subsection 269ZHI(1) of the Act for the publication of the SEF and to provide the final report to the Assistant Minister for Industry, Innovation and Science

and the Parliamentary Secretary to the Minister for Industry, Innovation and Science (the Parliamentary Secretary).

The Parliamentary Secretary has, under subsection 269ZHI(3) of the Act, extended the deadline for the publication of the SEF and submission of the final report. The SEF for all nine reviews will now be placed on the public record by no later than **22 February 2017**.¹ For all nine reviews, a recommendation to the Parliamentary Secretary will now be made in a final report due on or before **10 April 2017**.²

The SEF will set out the facts on which I propose to base recommendations to the Parliamentary Secretary in relation to these reviews.³

The final report will set out my recommendations to the Parliamentary Secretary in relation to whether the relevant dumping duty notices remain unaltered or have effect in relation to the applicants (set out in the table above) as if different variable factors had been ascertained.

Documents included on the public record may be examined at www.adcommission.gov.au or at the Commission's office by contacting the case manager on the details provided below.
