**ANTI-DUMPING NOTICE NO. 2016/107**

*Customs Act 1901 – Part XVB*

**Certain Deep Drawn Stainless Steel Sinks**

**Exported from the People's Republic of China**

**by Shengzhou Chunyi Electrical Appliances Co. Ltd**

**Findings in Relation to a Review of Anti-Dumping Measures**

***Notice under subsection 269ZDB(1)(a)(iii) of the Customs Act 1901  
and subsections 8(5BA) and 10(3D) of the Customs Tariff (Anti-Dumping) Act 1975***

The Commissioner of the Anti-Dumping Commission has completed a review, which was initiated on 16 May 2016, of the anti-dumping measures applying to certain deep drawn stainless steel sinks (the goods) exported to Australia from the People's Republic of China (China). The review was limited to examining whether the variable factors relevant to the taking of the anti-dumping measures as they affect Shengzhou Chunyi Electrical Appliances Co. Ltd. (SCEA) have changed.

Recommendations resulting from that review, reasons for the recommendations and material findings of fact and law in relation to the review are contained in *Anti-Dumping Commission Report No. 352 (REP 352)*.

I, CRAIG LAUNDY, Assistant Minister for Industry, Innovation and Science and Parliamentary Secretary to the Minister for Industry, Innovation and Science (the Parliamentary Secretary),<sup>1</sup> have considered REP 352 and have decided to accept the recommendations and reasons for the recommendations, including all the material findings of facts and law set out in REP 352.

Under subsection 269ZDB(1)(a)(iii) of the *Customs Act 1901* (the Act), I declare that, for the purposes of the Act and the *Customs Tariff (Anti-Dumping) Act 1975* (Dumping Duty Act), that, with effect from the date of publication of this notice, the dumping duty notice and countervailing duty notice currently applying to the goods exported to Australia from China by SCEA are to be taken to have effect as if I had fixed different variable factors in respect of SCEA, relevant to the determination of duty.

---

<sup>1</sup> On 19 July 2016, the Prime Minister appointed the Parliamentary Secretary to the Minister for Industry, Innovation and Science as the Assistant Minister for Industry, Innovation and Science. For the purposes of this decision the Minister is the Parliamentary Secretary to the Minister for Industry, Innovation and Science.

To preserve confidentiality, details of the revised variable factors such as the ascertained export price, ascertained normal value, non-injurious price and countervailable subsidy will not be published.

I, CRAIG LAUNDY, the Parliamentary Secretary:

- HAVE HAD REGARD TO:
  - in accordance with subsection 8(5BA) of the Dumping Duty Act, in relation to the goods exported to Australia from China by SCEA, the desirability of specifying a method such that the sum of the amounts outlined in subsections 8(5BA)(c), (d) and (e) do not exceed the non-injurious price; and
  - in accordance with subsection 10(3D) of the Dumping Duty Act, in relation to interim countervailing duty in respect of the goods exported to Australia from China by SCEA, the desirability of fixing the amount of interim countervailing duty in respect of the goods such that the sum of the amounts outlined in subsections 10(3D)(a), (b) and (c) do not exceed the non-injurious price.

The interim dumping duty is an amount worked out in accordance with *ad valorem* duty method, and the interim countervailing duty is worked out as a proportion of the export price of the goods, as detailed in the table below.

Particulars of the dumping and subsidy margins established for SCEA and the effective rate of duty are set out in the following table.

Exporter/country	Dumping Margin	Subsidy Margin	Effective rate of combined interim countervailing duty and interim dumping duty*	Duty Method
Shengzhou Chunyi Electrical Appliances Co. Ltd (China)	34.13%	20.03%	34.33%	For interim dumping duty: <i>ad valorem</i> duty method.  For interim countervailing duty: proportion of the export price of the goods.

\* The calculation of combined dumping and countervailing duties is not simply a matter of adding the dumping and subsidy margins together for any given exporter. Rather, the collective interim dumping duty and interim countervailing duty imposed in relation to the goods, is the sum of:

- the subsidy rate calculated for all countervailable programs, and
- the dumping rate calculated, less an amount for the subsidy rate applying to Program 1.

Interested parties may seek a review of this decision by lodging an application with the Anti-Dumping Review Panel ([www.adreviewpanel.gov.au](http://www.adreviewpanel.gov.au)) in accordance with the

requirements in Division 9 of Part XVB of the Act, within 30 days of the publication of this notice.

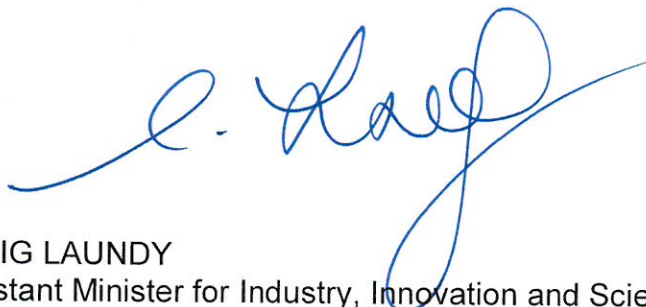

The Anti-Dumping Review Panel can be contacted by mail, phone, fax or email:
