

ANTI-DUMPING NOTICE NO. 2015/61

Certain Hollow Structural Sections

Exported from the Republic of Korea

by Kukje Steel Co Ltd

Findings in Relation to a Review of Anti-Dumping Measures

Customs Act 1901 – Part XVB

I Dale Seymour, Commissioner of the Anti-Dumping Commission, have completed the review, which commenced on 30 September 2014, of the anti-dumping measures applying to certain hollow structural sections (“the goods”) exported to Australia from the Republic of Korea (Korea) by Kukje Steel Co Ltd (Kukje).

Findings and a recommendation were reported to the Parliamentary Secretary to the Minister for Industry and Science (the Parliamentary Secretary) in *Anti-Dumping Commission Report No. 266* (REP 266). The Parliamentary Secretary has considered REP 266 and has accepted the recommendation and reasons for the recommendation, including all material findings of fact and law set out in REP 266.

Under subsection 269ZDB(1)(a)(iii) of the *Customs Act 1901* (the Act), the Parliamentary Secretary declared that, for the purposes of the Act and the *Customs Tariff (Anti-Dumping) Act 1975*, with effect from the date of publication of the notice, the dumping duty notice currently applying to the goods exported to Australia from Korea is to be taken to have effect or to have had effect in relation to Kukje as if the Minister had fixed different variable factors in respect of Kukje, relevant to the determination of duty.

The duty that has been determined is an amount worked out in accordance with the combination of fixed and variable duty method, as detailed in the table below.

Exporter/country	Dumping Margin	Effective rate of interim dumping duty	Duty calculation method
<i>Kukje Steel Co Ltd (Korea)</i>	<i>-6.7%</i>	<i>0%</i>	<i>Combination of fixed and variable duty method</i>

The actual duty liability may be higher than the effective rate of duty due to a number of factors. Affected parties should contact the Anti-Dumping Commission (the Commission)

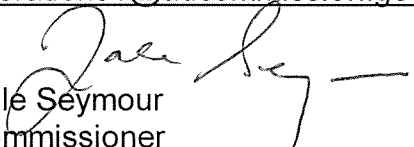

on 1300 884 159 or at clientsupport@adcommission.gov.au for further information regarding the actual duty liability calculation in their particular circumstance.

To preserve confidentiality, details of the revised variable factors such as Ascertained Export Price (AEP), Normal Value and Non-Injurious Price (NIP) will not be published. Bona fide importers of the goods can obtain details of the new rates from the Regional Dumping Liaison Officer in their respective capital city.

Interested parties may seek a review of this decision by lodging an application with the Anti-Dumping Review Panel (www.adreviewpanel.gov.au) in accordance with the requirements in Division 9 of Part XVB of the Act, within 30 days of the publication of this notice.

REP 266 has been placed on the public record. The public record may be examined at the Commission office by contacting the case manager on the details provided below. Alternatively, the public record is available at www.adcommission.gov.au.

Enquiries about this notice may be directed to the case manager on telephone number +61 3 8539 2412, fax number +61 3 8539 2499 or email at operations1@adcommission.gov.au.
