Customs Tariff (Anti Dumping) Act 1975
(Transitional provisions)

POLYVINYL CHLORIDE HOMOPOLYMER RESIN
EXPORTED FROM
JAPAN AND THE UNITED STATES OF AMERICA
FINDING IN RELATION TO A REVIEW OF
ANTI-DUMPING MEASURES
DIRECTION ON THE ASCERTAINMENT
OF DUMPING DUTY PURSUANT TO
SUPERSEDED SUBSECTION 8(5)

The Australian Customs and Border Protection Service (Customs and Border Protection) has completed its review of anti-dumping measures applying to polyvinyl chloride homopolymer resin (the goods) exported to Australia from Japan and the United States of America, which commenced on 24 February 2012. Recommendations resulting from the review, reasons for the recommendations and material findings of fact and law in relation to the review are contained in International Trade Remedies Report No. 185 (REP 185).

I, JASON CLARE, the Minister for Home Affairs, have considered REP 185 and have decided to accept the recommendations and reasons for the recommendations, including all the material findings of facts or law set out in REP 185. Pursuant to superseded subsection 8(5) of the *Customs Tariff (Anti Dumping) Act 1975*, I hereby give a direction in respect of polyvinyl chloride homopolymer resin (hereinafter referred to as the goods) exported from Japan and the United States of America to Australia.

I **DIRECT** that, having regard to subsection 8(5A), the dumping duty referred to in subsection 8(4), ascertained by reference to the value and quantity of the goods, is the amount, if any, by which the export price of the goods for each of the exporters identified in Column 1 of the Table attached, is less than the amount in Column 2 (the normal value of the goods) or Column 3 (the non-injurious free-on-board price of the goods), whichever is the lesser.

This notice applies to goods entered for home consumption on or after the publication of this notice.

To preserve confidentiality, the attachments to this Notice will not be published as that would adversely affect the business or commercial interests of interested parties. Bona fide importers of the goods can obtain details of the new rates from the Regional Dumping Officer in their respective capital city.

Copies of REP 185 are available on request from International Trade Remedies Branch, Canberra, on telephone number (02) 6245 5434 or fax number (02) 6275 5990 or itrops1@customs.gov.au. Reports are also available on the Customs and Border Protection internet site at www.customs.gov.au.

Enquiries regarding the outcome of the review may be directed to the case manager on telephone number (02) 6245 5434, fax number (02) 6275 6990 or itrops1@customs.gov.au.

Dated this 12th day of October 2012
