

Public Record

FILE NOTE

Exemption request – Prepared or preserved tomatoes, exported to Australia from Italy

Record of email correspondence between the Anti-Dumping Commission and Leo's Imports & Distributors Pty Ltd

From the Anti-Dumping Commission dated 30 January 2015:

Further to your correspondence of 4 December 2014 and the Australian Industry's response to the Exemption Application, can you please provide some additional information:

Cherry tomatoes –

- how are cherry tomatoes grown and how is this different to how non-cherry tomatoes are grown?
- please describe the production process for cherry tomatoes and how this is different to non-cherry tomatoes
- commercial substitutability of cherry tomatoes with non-cherry tomatoes (commercial likeness)

Organic tomatoes –

- how organic tomatoes are grown and how this is different to non-organic tomatoes
- please describe the production process for organic tomatoes and how this is different to non-organic tomatoes
- if organic tomatoes are preservative and additive free, then is their shelf life shorter?
- commercial substitutability of organic tomatoes with non-organic tomatoes
- purpose and end use of organic tomatoes
- please advise of the criteria to be met for the certification process for organic tomatoes

San Marzano (SM) tomatoes –

- how SM tomatoes are grown and how this is different to non-SM tomatoes
- the production process for SM tomatoes and how this is different to non-SM tomatoes
- commercial substitutability of SM tomatoes with non-SM tomatoes
- purpose and end use of SM tomatoes
- please advise of the criteria to be met for the certification process for SM tomatoes

Your earliest responses are much appreciated.
