[coking coal prices ...]

Figures above are monthly total export volumes / average monthly fob **export prices** for **blast furnace coke** shipped from Poland and the Czech Republic. Note that **value of last data point is typically incomplete** as it is based on partial data - this price point especially may be subject to significant revision (volume and value).

All prices are expressed in **Euros per metric tonne**. For earlier historic coke pricing data or to request a price forecast, please contact support@steelonthenet.com. To see other commodity price data including thermal coal, iron ore, ferrous scrap, natural gas and electricity prices, see our commodity prices page.
