***Notice under subsection 269ZDB(1)(a)(iii) of the Customs Act 1901
and subsections 8(5) of the Customs Tariff (Anti-Dumping) Act 1975***

The Commissioner of the Anti-Dumping Commission has completed two reviews, which were initiated on 19 May 2017, of the anti-dumping measures applying to steel rod in coils (‘the goods’) exported to Australia from the People’s Republic of China (China) by Jiangsu Shagang Group Co., Ltd. and Hunan Valin Xiangtan Iron & Steel Co., Ltd. The reviews examined whether the variable factors relevant to the taking of the anti-dumping measures as they affect the aforementioned exporters of the goods from China should be varied.

Anti-Dumping Commission Report Nos. 413 and 414 (REP 413 and 414) contains the recommendations resulting from the reviews, reasons for the recommendations and material findings of fact and law.

I, ZED SESELJA, Assistant Minister for Science, Jobs and Innovation (the Assistant Minister), have considered REP 413 and 414, and have decided to accept the recommendations and reasons for the recommendations, including all the material findings of facts and law.

Under subsection 269ZDB(1)(a)(iii) of the *Customs Act 1901* (the Act), I DECLARE that, for the purposes of the Act and the *Customs Tariff (Anti-Dumping) Act 1975* (Dumping Duty Act), that, with effect from the day following publication of this notice, the dumping duty notice currently applying to the goods exported to Australia from China be taken to have effect as if I had fixed different variable factors in respect the exporters subject to these reviews as detailed in the table below, relevant to the determination of duty.

I, ZED SESELJA, the Assistant Minister, DETERMINE, pursuant to subsection 8(5) of the Dumping Duty Act, that the interim dumping duty (IDD) payable on the goods exported to Australia be an amount worked out in accordance with the combination of fixed and variable duty method pursuant to subsections 5(2) and (3) of the *Customs Tariff (Anti-Dumping) Regulation 2013*, as detailed in the table below, to take effect the day following publication of this notice.

Exporter	Dumping margin	Fixed rate of IDD	Duty method
Hunan Valin Xiangtan Iron & Steel Co., Ltd	24.3%	24.3%	Combination of fixed and variable duty method, consisting of a fixed rate of IDD plus a variable component of IDD equal to the amount, if any, by which the actual export price is lower than the ascertained export price.
Jiangsu Shagang Group Co., Ltd	24.2%	24.2%	

To preserve confidentiality, details of the revised variable factors being the Ascertained Export Price (AEP) and Ascertained Normal Value (ANV) will not be published.
