**ANTI-DUMPING NOTICE NO. 2018/95**

**Aluminium Zinc Coated Steel  
Exported from the People's Republic of China  
and the Republic of Korea**

**Findings in Relation to a Review of Anti-Dumping Measures**

***Notice under subsection 269ZDB(1) of the Customs Act 1901***

The Commissioner of the Anti-Dumping Commission has completed a review, which commenced on 10 November 2017, of the anti-dumping measures applying to aluminium zinc coated steel (the goods) exported to Australia from the People's Republic of China (China) and the Republic of Korea (Korea).

Recommendations resulting from that review, reasons for the recommendations and material findings of fact and law in relation to the review are contained in *Anti-Dumping Commission Report Nos. 456 and 457* (REP 456 and 457).

I, ZED SESELJA, the Assistant Minister for Science, Jobs and Innovation (Assistant Minister) have considered REP 456 and 457 and have decided to accept the recommendations and reasons for the recommendations, including all the material findings of facts or law set out in REP 456 and 457.

Under subsection 269ZDB(1)(a)(iii) of the *Customs Act 1901* (the Act), I declare that, for the purposes of the Act and the *Customs Tariff (Anti-Dumping) Act 1975* (Dumping Duty Act), that with effect from the date of publication of this notice the dumping duty notice currently applying to the goods exported to Australia from China and Korea and the countervailing duty notice currently applying to the goods exported to Australia from China are to be taken to have effect as if different variable factors had been fixed in respect of exporters generally, relevant to the determination of duty.

The duty that has been determined is an amount worked out in accordance with the combination of fixed and variable duty method or the floor price duty method, as detailed in the table below. Particulars of the dumping and subsidy margins established for each of the exporters and the effective rates of duty are set out in the following table.

Country	Exporter	Dumping Margin	Subsidy Margin	Effective rate of combined interim countervailing duty and interim dumping duty*	Duty Method
China	Angang Steel Company Ltd	29.3%	N/A	29.3%	combination of fixed and variable duty method
	Yieh Phui (China) Technomaterial Co Ltd	27.6%	N/A	27.6%	combination of fixed and variable duty method
	Jiangyin Zongcheng Steel Co Ltd	9.5%	N/A	9.5%	combination of fixed and variable duty method
	Union Steel China Co. Ltd	31.5%	N/A	31.5%	combination of fixed and variable duty method
	All other exporters	31.5%	21.7%	53.2%	combination of fixed and variable duty method
Korea	Dongkuk Steel Mill Co. Ltd	Exempt			
	Dongbu Steel Co Ltd	17.7%	N/A	17.7%	combination of fixed and variable duty method
	All other exporters	24.8%	N/A	24.8%	combination of fixed and variable duty method

\* The calculation of combined dumping and countervailing duties is not simply a matter of adding the dumping and subsidy margins together for any given exporter, or group of exporters. Rather, the collective interim dumping duty and interim countervailing duty imposed in relation to the goods, is the sum of:

- the subsidy rate calculated for all countervailable programs, and
- the dumping rates calculated.

The actual duty liability may be higher than the effective rate of duty due to a number of factors. Affected parties should contact the Anti-Dumping Commission (the Commission) at [business.gov.au](http://business.gov.au) on 132 846 or +61 2 6213 6000 or by email to [clientsupport@adcommission.gov.au](mailto:clientsupport@adcommission.gov.au) for further information regarding the actual duty liability calculation in their particular circumstance.

To preserve confidentiality, details of the revised variable factors such as Ascertained Export Price (AEP) and Normal Value and Non-Injurious Price (NIP) will not be published.

Interested parties may seek a review of this decision by lodging an application with the Anti-Dumping Review Panel ([www.adreviewpanel.gov.au](http://www.adreviewpanel.gov.au)) in accordance with the requirements in Division 9 of Part XVB of the Act, within 30 days of the publication of this notice.

The Anti-Dumping Review Panel can be contacted by mail, phone, fax or email:
