BACKGROUND AND GENERAL INSTRUCTIONS

Why you have been asked to fill out this questionnaire?

The Anti-Dumping Commission (the Commission) is responsible for investigating the allegation that steel reinforcing bar has been exported to Australia from the People's Republic of China (China) in receipt of countervailable subsidies, and that the subsidised exports has caused material injury to the Australian industry.

The Commission will use the information you provide to determine subsidies over the investigation period (1 July 2014 to 30 June 2015). This information will determine whether steel reinforcing bar (Rebar) is subsidised. You may make separate submissions concerning any other matter, for example injury.

The Commission investigation will be carried out under the provisions of the Part XVB of the Customs Act 1901.

What happens if you do not respond to this questionnaire?

You do not have to complete the questionnaire. However, if you do not respond or do not provide all information sought by the due date, the Commission will not be able to verify the information, and the Commission may deem you uncooperative. In that case, the Commission may be required to rely on information supplied by other parties (possibly information supplied by the Australian industry), and it may assess a subsidy margin for your company based upon subsidies that may be the highest rate determined in your country during the investigation period.

It is in your interest, therefore, to provide a complete and accurate submission, capable of verification.

Due date for response

Manufacturers and exporters are requested to respond to this questionnaire and return it to the Commission within the time specified on the cover page.

The Commissioner must consider the Direction from the Minister for Industry, Innovation and Science as set out in the *Customs (Extensions of Time and Non-cooperation) Direction 2015* (the Direction). This Direction sets out the particular considerations that the Commissioner must take into account when:

- deciding whether a longer period is reasonably required or practicable under subsections 269TC(6) and 269TC(9) of the *Customs Act 1901* (the Act), or considering whether to allow any interested party a longer period to give any response;
- considering an insufficient response from an interested party;
- determining whether to have regard to a late response;
- determining whether an exporter is an uncooperative exporter;
- determining whether or not an entity is a non-cooperative entity for the purposes of section 269TAACA; and
- determining whether an entity has significantly impeded a case.

The full text of the Direction and the accompanying explanatory statement is available at www.comlaw.gov.au. This and other reforms to Australia's anti-dumping system are explained in Anti-Dumping Notice No. 2015/129, available on the Commission's website at www.adcommission.gov.au.

If you cannot lodge your responses by the due date please advise the investigation Case Manager as soon as possible.

Confidential and non-confidential submissions

You are required to lodge one confidential version (for official use only) and one non-confidential version (for public record) of your submission by the due date.

Please ensure that each page of information you provide is clearly marked either "FOR OFFICIAL USE ONLY" or "PUBLIC RECORD".

All information provided to the Commission in confidence will be treated accordingly. The public record version of your submission will be placed on the public record.

Please note, Australia's anti-dumping and countervailing legislation requires that to the extent that information given to the Commission is claimed to be confidential or whose publication would adversely affect a business or commercial interest, the person giving the information must ensure that a summary of that information contains sufficient detail to allow a reasonable understanding of the substance of the information, but does not breach confidentiality nor adversely affect those interests.

The legislation allows that a person is not required to provide a summary for the public record if the Commission can be satisfied that no such summary can be given that would allow a reasonable understanding of the substance of the information. However, such a summary would add considerably to an interested party's understanding of information contained in a document.

As provided for in Australia's anti-dumping and countervailing legislation, all submissions are required to have a bracketed explanation of deleted or blacked out information for the non-confidential version of the submission. Note that if such an explanation is not provided, the Commission may disregard the information in the submission. An example of a statement to accompany deleted/blacked out text is:

[explanation of cost allocation through the divisions].

If, for some reason, you cannot produce a non-confidential summary, please contact the case manager before the due date.

Exporter's declaration

At Section D, you are required to make a declaration that the information contained in your submission is complete and correct. Alternatively, if you did not export the goods during the period of investigation, you may make a declaration to that effect.

You must return a signed declaration with your response to the questionnaire.

Verification of the information that you supply

The Commission will seek to verify the information provided in your submission. Where there are a large number of exporters, the Commission may have to verify information from selected exporters only. It is not meant to be a chance for you to provide new or additional information. The Commission expects your response to the questionnaire to be complete and accurate.

Verification visits take several days. We will want to examine in detail your company's records in respect of the goods and will ask for copies of documents relating to the manufacture and sale of the goods. We will need to consult with your staff, particularly your financial controller (or accountant) and your domestic and export sales people. We may also need to see your factory, in which case we will need to consult with your operational managers.

After gathering the information we will prepare a report of the visit. We will provide you with a draft of the report and then respond to any questions you have. We will ask you to prepare a non-confidential copy of the report for the public record.

If you do not manufacture the goods

You may export but not produce or manufacture the goods (for example, you are a trading company, broker, or vendor dealing in the goods). In such cases it is important that you forward a copy of this questionnaire to the relevant manufacturers **immediately.** You should also inform the case manager of the contact details for these manufacturers.

You should complete those sections of the questionnaire that you are reasonably able to complete. If, for example, you are unable to supply details of production costs, you should clearly explain why the section does not apply to your company.

If you do not export the goods

Depending on the arrangement for sale of the goods to Australia through an intermediary, the Commission will have to determine who is the exporter of the goods for the purpose of this investigation. In the absence of verified information, the Commission may use other available information. This information may result in a decision less favourable to your company.

SECTION B - SALES TO AUSTRALIA

This section requests information concerning your export practices and prices to Australia. You should include costs incurred beyond ex-factory (EXW). Export prices are usually assessed at FOB point, but the Commission may also compare prices at the ex-factory level.

You should report prices of **all** goods under consideration (the goods) **shipped** to Australia during the investigation period.

B-1 Customers

For each customer in Australia to whom you shipped goods in the investigation period list:

Name;

Address;

Contact name and phone/fax number where known; and

Trade level (for example: distributor, wholesaler, retailer, end user).

Response: Please refer to [CONFIDENTIAL, <u>Exhibit B-1: Australian Customers</u>].

B-2 Customer details

For each customer identified in B1 please provide the following information.

(a) Describe how the goods are sent to each customer in Australia, including a diagram if possible.

Response: For all the Australian sales, the company directly delivers the goods to Australian ports designated by the customers.

(b) Identify each party in the distribution chain and describe the functions performed by them. Where commissions are paid indicate whether it is a pre or post exportation expense having regard to the date of sale.

<u>Response</u>: In the whole distribution chain, the channels and functions are illustrated as following:

- (1) Shiheng Steel (exporting producer) → Australian customers (importer)
- (2) Shiheng Steel (exporting producer) → HK Lutai (trader, re-invoice and collecting payment) → Australian customers (importer)

No commissions are paid in this whole process. HK Lutai has its own mark-up in the resales.

(c) Explain who retains ownership of the goods at each stage of the distribution chain. In the case of DDP¹ sales, explain who retains ownership when the goods enter Australia.

Response: The party who holds the original bill of lading possesses the ownership of the goods. There are no DDP sales for Australian sales.

(d) Describe any agency or distributor agreements or other contracts entered into in relation to the Australian market (supply copy of the agreement if possible).

Response: No agency or distributor agreements exist in relation to the Australian market.

(e) Explain in detail the process by which you negotiate price, receive orders, deliver, invoice and receive payment. If export prices are based on price lists supply copies of those lists.

<u>Response</u>: Shiheng Steel negotiates the price with Australian customers. Upon the terms and conditions are agreed, it receives orders and arranges production. The goods are directly delivered to Australia from Shiheng Steel. Shiheng Steel issues the invoice either directly to Australian importers or to HK Lutai. HK Lutai re-issues the invoice to Australian importers. The payment will be paid according to the invoicing route. The export prices are not based on price lists.

(f) State whether your firm is related to any of its Australian customers. Give details of any financial or other arrangements (e.g. free goods, rebates, or promotional subsidies) with the customers in Australia (including parties representing either your firm or the customers).

<u>Response</u>: The company is not related to and has no financial or other arrangements with any of its Australian customers.

(g) Details of the forward orders of the goods under consideration (include quantities, values).

Response: There are no such forward orders of the goods under consideration.

You must provide this list in electronic format. Include the following export related information:

Column heading	Explanation	
Customer name	Names of your customers	
Model	Commercial model name	
Product code	Code used in your records for the model/grade/type	

¹ Delivered duty paid

.

	identified. Explain the product codes in your submission
Invoice number	Invoice number
Invoice date	Invoice date
Date of sale	Refer to the explanation at the beginning of this section. If you consider that a date <i>other than</i> the invoice date best establishes the material terms of sale, report that date. For example, order confirmation, contract, or purchase order date.
Shipping terms	Delivery terms eg. CIF, C&F, FOB, DDP (in accordance with Incoterms)
Gross invoice value	Gross invoice value shown on invoice in the currency of sale, excluding taxes
Discounts on the invoice	If applicable, the amount of any discount deducted on the invoice on each transaction. If a % discount applies show that % discount applying in another column.
Rebates or other allowances	The amount of any deferred rebates or allowances paid to the importer in the currency of sale.
Other charges	Any other charges, or price reductions, that affect the net invoice value. Insert additional columns and provide a description.
Invoice currency	The currency used on the invoice
Exchange rate	Indicate the exchange rate used to convert the currency of the sale to the currency used in your accounting system.
Net invoice value in the currency of the exporting country	The net invoice value expressed in your domestic currency as it is entered in your accounting system
FOB export price**	The free on board price at the port of shipment.
Packing	Packing expenses
Other Costs	Any other costs, charges or expenses incurred in relation to the exports to Australia (include additional columns as required). See question B.5.

^{**} FOB export price: An FOB export price must be calculated for each shipment - regardless of the shipping terms. FOB price includes inland transportation to the port of exportation, inland insurance, handling, and loading charges. It excludes post exportation expenses such as ocean freight and insurance. Use a formula to show the method of the calculation on each line of the export sales spreadsheet.

Response: Please refer to the spreadsheet [CONFIDENTIAL, <u>Australian Sales</u>].

B-4 Other Factors

If there are any other costs, charges or expenses incurred in respect of the exports listed above which have not been identified in the table above, add a column (see "other factors – [17]" in question B-3) for each item, and provide a description of each item. For example, other selling expenses (direct or indirect) incurred in relation to the export sales to Australia.

Response: The company reported the bank charges that incurred in the sales process.

B-5 Delivery Terms

If the delivery terms make you responsible for arrival of the goods at an agreed point within Australia (eg. delivered duty paid), insert additional columns in the spreadsheet for all other costs incurred. For example:

Import	Amount of import duty paid in Australia
duties	
Inland	Amount of inland transportation expenses within Australia
transport	included in the selling price
Other costs	Customs brokers, port and other costs incurred (itemise)

Response: The company is not responsible for arrival of the goods within Australia.

B-6 Shipment Documentation

If not submitted your questionnaire response in relation to a concurrent dumping investigation (INV 300 refers), then select two shipments, in different quarters of the investigation period, and provide a <u>complete</u> set of all of the documentation related to the export sale. For example:

- the importer's purchase order, order confirmation, and contract of sale;
- commercial invoice;
- applicable test certificates and production reports;
- bill of lading, export permit;
- freight invoices in relation to movement of the goods from factory to Australia, including inland freight contract;
- marine insurance expenses; and

Programs 1 – 3: Raw materials (Steel Billet, Coking Coal and Coke)

The applicant claims that public bodies (in the form of state-invested enterprises (SIEs³)) are supplying raw materials (steel billet, coking coal, coke), directly or indirectly, to manufacturers of steel reinforcing bar at less than fair value:

Program 1: Billet provided by the Government of China at less than adequate remuneration

Program 2: Coking coal provided by the Government of China at less than adequate remuneration

Program 3: Coke provided by the Government of China at less than adequate remuneration

In relation to these programs, provide the following information.

<u>Response</u>: Please refer to Exhibit A-5: Production process flowchart as provided above for the detailed information concerning production process. The raw materials used include: iron ore, coking coal, coke, lime, scrap steel etc.

 Did your business or any company/entity related to your business receive any benefit under the above programs during the period 1 July 2011 to 30 June 2015? If yes, provide details.

22

³ For the purpose of this questionnaire State Owned enterprise (SOE) and State Invested Enterprise (SIE) are together referred to as SIE. The term SIE is defined in the glossary of this questionnaire.

Response: The company doesn't receive any benefit under the above programs during the period 1 July 2011 to 30 June 2015.

3. Does your business purchase any raw materials (e.g. steel billet, coking coal, coke) in the manufacture of steel reinforcing bar?

<u>Response</u>: Yes, the company purchases the above raw materials in the manufacture of steel reinforcing bar.

Provide responses to Question 4 and Questions 5-7 in the tables provided on the "Raw Materials Purchases" tab on the attached "Exporter Questionnaire – CV – Rebar".

4. Provide data on a transaction-by-transaction basis, for all purchases of raw materials during the period 1 July 2014 to 30 June 2015. This data should be provided for all purchases, not only those of Chinese origin (i.e. include imported materials as well). In the list, please be sure provide a contact name and address, of all your suppliers of raw materials and indicate whether the supplier is a SIE.

Please add more space for additional suppliers and/or categories of product as required.

- 5. Did your business receive any reduction/reduced price for the purchase of these goods/services during the investigation period? If so, describe the eligibility criteria that your business had to meet in order to qualify for any reduction in the price paid for the goods/services.

Program 4: Electricity

The applicant claims that public bodies (in the form of state invested enterprises (SIEs)) are supplying electricity, directly or indirectly, to manufacturers of steel reinforcing bar at less than adequate remuneration.

 Does your business or related business purchase electricity to manufacture steel reinforcing bar? If not, what alternative power source is used in the production of steel reinforcing bar?

<u>Response</u>: Yes, the company purchases electricity to manufacture steel reinforcing bar.

Please answer Questions 2 - 5 in relation to your purchases of electricity from 1 July 2014 to 30 June 2015 in the "Electricity" tab in the "Exporter Questionnaire – CV – Rebar" workbook.

How does the price of electricity in your province differ to the price established by the GOC?

<u>Response:</u> The company, as a common consumer, has no idea about the price differences in our province and that established by the GOC. We simply purchase the electricity from open market. The company is not in a proper position to answer the above question.

One of the authorised business activities available for the management of non-performing loans purchased by the AMCs was the debt for equity swap. A debt for equity swap is a transaction in which a creditor, in this case an AMC, forgives some or all of a company's debt in exchange for equity in the company.

 - i. the nominal value of the shares.
 - i. and the company's debt-to-equity ratio before and after the swap.
 - k. the dates of the transactions.

Also, provide the following information for each "swapped" debt:

Program 44: Equity infusions

Program 45: Unpaid dividends

The Commission understands that according to GOC policy, state-owned enterprises including the steel companies producing/exporting the goods under consideration do not have to pay dividends to the government as their owner, even when they earn profits. The applicant claims that unpaid dividends should be considered as a disguised grant or as revenue forgone because the GOC does not collect dividends that are normally paid to private investors on their shares.

Please provide the following information:

- 1. The relevant provisions on distribution of dividends contained in the legislation, in administrative documents, and in any other official documents.
- 2. The practice and policy on dividend distributions contained in your company documents, including the by-laws, resolutions of the shareholders or the board of directors, minutes of the meeting, shareholders' agreements etc.

PART C-5 PREFERENTIAL LOANS AND INTEREST RATES

It is our understanding that certain enterprises in China benefit from low (subsidised) interest rates from state owned commercial banks (SOCB) and government banks in accordance with the GOC policy to support and develop the expansion of the Chinese steel industry.

If your business or any company/entity related to your business received benefits under any such program during the period 1 July 2010 to 30 June 2015, please answer the following questions.

1. Provide give a general overview of how your company secures necessary financial resources on the financial market (e.g. Loans, issuance of bonds etc.)

Note: If your company has more than one loan from same bank/financial institution which were not repaid by the end of the investigation period and the loan agreements for these loans are standardised, it is sufficient at this stage to provide an English translation for one of them only (e.g. If your company has multiple loans from one particular bank which only differ in amounts you only need to translate one of them into English for your questionnaire response. However it is necessary to translate all credit line agreements from which loans not repaid by the end of the investigation period were drawn.

- 8. Please explain whether the granting of the specific loan depended on the link between the purpose of the loan and the goals specified in any government plan or development program. Provide a copy of the laws, regulations, administrative guidelines and any other acts relevant for the operation of this lending with any subsequent amendments. APPENDIX 1 - GLOSSARY OF TERMS

This glossary is intended to provide you with a basic understanding of technical terms that appear in the questionnaire.

Arms length

Sales are not considered to be at "arms length" on your domestic market if there is any consideration payable for the goods other than their price, or there is an association between the buyer and the seller which affects the price, or there will be a reimbursement, compensation or benefit for, or in respect of, the price.

Financial Asset Management Companies (AMCs)

According to Article 2 of *Regulation on Financial Asset Management Companies* issued by the State Council in 2000:

The term "financial asset management company" refers to a wholly stateowned non-banking financial institution that has been established upon the decision of the State Council to purchase the [non performing loans] (NPLs) of state-owned banks as well as to manage and dispose of any assets resulting from purchase of the NPLs of state-owned banks.

Associated Companies

Persons shall be deemed to be associates of each other if, and only if:

- (a) both being natural persons:
 - (i) they are connected by a blood relationship or by marriage or by adoption; or
 - (ii) one of them is an <u>officer</u> or director of a body corporate controlled, directly or indirectly, by the other;
- (b) both being bodies corporate:
 - (i) both of them are controlled, directly or indirectly, by a third <u>person</u> (whether or not a body corporate); or
 - (ii) both of them together control, directly or indirectly, a third body corporate; or

- (d) one of them, being a natural <u>person</u>, is an employee, <u>officer</u> or director of the other (whether or not a body corporate); or

(e) they are members of the same partnership.

Benefit

As further defined in relation to the definition of the term 'subsidy' below, 'benefit' may include:

- a direct transfer of funds;
- the acceptance of liabilities (e.g debts or other liabilities), whether actual or potential, of your enterprise;
- the forgoing, or non-collection, of revenue (other than an allowable exemption or remission) that was otherwise due (e.g. reduced rate of income tax, waiving certain other taxes);
- the provision of goods or services otherwise than in the course of providing normal infrastructure; or
- the purchase of goods

by the Government of China (GOC) (at any level), a public body of the GOC, or a private body entrusted by the GOC to carry out GOC functions.

Cost of production/manufacturing

The cost of production or manufacture consists of all manufacturing costs associated with the goods. It is the sum of direct materials, direct labour and factory overheads.

Cost to make and sell (CTMS)

The cost to make and sell is the sum of the cost of production or manufacture, and the selling, general and administration costs associated with the sale of those goods.

Country of origin

The country in which the last significant process in the manufacture or production of the goods was performed.

Date of sale

The Commission will normally use the invoice date as recorded in the exporter or producer's records. Another date may be used if this better reflects the material terms of sale. The questionnaire directs attention to matching data sets of domestic and export sales where some other date is used, as well as matching cost information.

Direct labour cost

Direct labour is categorised as a variable cost, ie. the value varies with the level of production.

Export price

The export price of the goods is usually the price paid or payable to the exporter in arms length transactions, in most instances calculated at the Free on Board (FOB) level.

Exporting country

The country of export is normally the country of origin from which the goods are shipped. The country of export may be an intermediate country, except where the products are merely transhipped through that country, or the products concerned are not produced in that country, and there is no comparable price in that country.

Enterprise

"Enterprise" includes a group of enterprises, an industry and/or a group of industries

Factory overheads

Factory overheads consist of variable costs eg. power, supplies, indirect labour and fixed costs eg. factory rent, factory insurance, factory depreciation etc.

Foreign Invested Enterprise (FIE)

An FIE may be:

1. Chinese-foreign equity joint venture:

Joint venture between a Chinese company, enterprise, or other business organisation and a foreign company, enterprise, business organisation or individual set up in the form of a Chinese limited liability company.

The characteristics of a Chinese-foreign equity joint venture are joint investment, joint operation, and the participants share profits, risks and losses in proportion to their respective contributions to the registered capital of the joint venture.

The proportion of the investment by the foreign party is no less than 25% in the registered capital of equity joint venture.

2. Chinese-foreign contractual joint venture:

A joint venture established between foreign enterprises and other economic organisations or individuals, and Chinese enterprises or other economic organisations within the territory of China. The rights and obligations of each party are determined in accordance with the agreement specified in the contractual joint venture contract. The investment or conditions for cooperation contributed by the Chinese and foreign parties may be provided in cash or in kind, or may include the right to the use of land, industrial property rights, non-patent technology or other property rights.

3. Wholly foreign owned enterprises:

A wholly foreign owned enterprise is established by foreign enterprises and other economic organisations or by individuals pursuant to the Chinese laws within the territory of China. All of the wholly foreign owned enterprise's capital is invested by foreign investors. It may also be referred to as a Foreign Enterprise (FE).

Goods under consideration (the goods)

The goods to which the application for countervailing action relates. That is, the goods that you have exported to Australia allegedly at subsidised prices.

Incoterms

The following abbreviations are commonly used (comment is provided concerning costs that are normally borne by the seller):

EXW	ex works (the seller's minimum obligation as costs relate to goods being made available at the sellers premises)

Investigation period

A period defined by the Commission over which importations of the goods are examined.

Program(s)

The term "program", as used throughout this questionnaire in reference to alleged subsidies, refers to broad categories of subsidies that Customs and Border Protection has reason to believe may be available to exporters of the goods.

In this regard, the term "program" as used in this questionnaire should not be taken to necessarily refer to formal programs maintained by the GOC, nor should it be taken to refer to one specific subsidy. Rather, "program" as used in this questionnaire can refer to informal subsidies provided by the GOC, and can also refer to multiple individual, albeit similar, subsidies.

State-owned enterprise (SOE) or state-invested enterprise (SIE)

For the purposes of this questionnaire, SOE refers to any company or enterprise that is wholly or partially owned by the GOC as defined above (either through direct ownership or through association).

In previous investigations and correspondence, the GOC has advised that the use of the term 'SOE' is declining in China, and that these enterprises are now referred to with terms such as:

- 'enterprises with state investment'
- 'state-owned assets'
- 'state-invested enterprises'
- 'enterprises under the supervision of SASAC'

of which there are several types.

For the purposes of this questionnaire, SOE refers to any and all of the above types of enterprises.

Subsidy

In respect of goods exported to Australia, means:

- (a) a financial contribution:
 - (i) by a government of the country of export or country of origin of the goods; or

- (ii) by a public body of that country or a public body of which that government is a member; or
- (iii) by a private body entrusted or directed by that government or public body to carry out a governmental function;

that involves:

- (iv) a direct transfer of funds from that government or body; or
- (v) the acceptance of liabilities, whether actual or potential, by that government or body; or
- (vi) the forgoing, or non-collection, of revenue (other than an allowable exemption or remission) due to that government or body; or
- (vii) the provision by that government or body of goods or services otherwise than in the course of providing normal infrastructure; or
- (viii) the purchase by that government or body of goods or services; or
- (b) any form of income or price support as referred to in Article XVI of the General Agreement on Tariffs and Trade 1994 that is received from such a government or body;

if that financial contribution or income or price support confers a benefit (whether directly or indirectly) in relation to the goods exported to Australia.
