Hi Troy,

I have considered your request for extension and am willing to grant an extension to 7 October 2013 for completion of the exporter questionnaire by Fortune Electric Co. Please note that all information requested by the questionnaire must be provided by that date. This includes the non-confidential versions of the questionnaire response. Failure to provide the public version of the questionnaire response by the extended date will result in your client being considered to have not complied with the questionnaires requirements.
