Customs Tariff (Anti-Dumping) Act 1975

Aluminium Zinc Coated Steel
exported from the People's Republic of China

Notice pursuant to subsections 10(3B) and 10(3D) of the Customs Tariff (Anti-Dumping) Act 1975

I, ZED SESELJA, the Assistant Minister for Science, Jobs and Innovation (Assistant Minister), having decided to issue a notice pursuant to subsection 269ZDB(1)(a) of the Customs Act 1901 (the Act) in respect of aluminium zinc coated steel described in that notice (the goods), DIRECT, pursuant to subsection 10(3B)(a) of the Customs Tariff (Anti-Dumping) Act 1975 (the Dumping Duty Act), that the interim countervailing duty referred to in subsection 10(3A) of that Act in respect of aluminium zinc coated steel exported from the People’s Republic of China to Australia be ascertained as a proportion of the export price of those particular goods.

Pursuant to subsections 10(3DA)(c) of the Dumping Duty Act, I have not had regard, under subsection 10(3D) of the Dumping Duty Act, to the desirability of fixing the amount of countervailing duty in respect of the goods such that the sum of the export price of the goods, the amount of interim countervailing duty as so fixed, and the amount of interim dumping duty as fixed does not exceed the non-injurious price as last ascertained because I am satisfied that the normal value of the goods was not ascertained under subsection 269TAC(1) of the Act because of the operation of subsection 269TAC(2)(a)(ii) of the Act.

This notice applies to the goods and like goods entered for home consumption on and after the date this notice is published.

Dated this 12th day of July 2018.

ZED SESELJA
Assistant Minister for Science, Jobs and Innovation
