# **ANTI-DUMPING NOTICE NO. 2018/126**

*Customs Act 1901 – Part XVB*

## **Hot Rolled Coil Exported from Taiwan**

### **Findings in relation to a Review of Anti-Dumping Measures**

**Notice under subsection 269ZDB(1) of the *Customs Act 1901***

The Commissioner of the Anti-Dumping Commission has completed a review, which commenced on 1 November 2017, of the anti-dumping measures applying to hot rolled coil exported to Australia from Taiwan. The anti-dumping measures are in the form of a dumping duty notice.

Recommendations resulting from the review, reasons for the recommendations, and material findings of fact and law in relation to the review are contained in *Anti-Dumping Commission Report No. 454* (REP 454).

I, KAREN ANDREWS, the Minister for Industry, Science and Technology, have considered REP 454 and have decided to accept the recommendations and reasons for the recommendations, including all the material findings of facts or law set out in REP 454.

Under subsection 269ZDB(1)(a)(iii) of the *Customs Act 1901* (the Act), I declare that, for the purposes of the Act and the *Customs Tariff (Anti-Dumping) Act 1975* (Dumping Duty Act), that, with effect from the date of publication of this notice, the dumping duty notice applying to the goods exported to Australia from Taiwan be taken to have effect as if different variable factors had been fixed in respect of exporters generally, relevant to the determination of duty.

Pursuant to subsection 8(5B) of the Dumping Duty Act, I have had regard to the desirability of fixing a lesser amount of duty. If the non-injurious price of goods of that kind as ascertained or last ascertained for the purposes of the dumping duty notice is less than the normal value of goods of that kind as so ascertained, or last so ascertained, a lesser amount of interim dumping duty is fixed such that the sum of:

- (i) the export price of goods of that kind as so ascertained, or last so ascertained; and
- (ii) that lesser duty,

does not exceed that non-injurious price of goods of that kind as ascertained.

To preserve confidentiality, details of the revised variable factors being the Ascertained Export Price (AEP), Ascertained Normal Value (ANV), and non-injurious price (NIP) will not be published.

Particulars of the dumping margins established for each of the exporters and the effective rates of duty are also set out in the following table.

Country	Exporter	Dumping Margin	Effective Rate of Duty	Duty Method
Taiwan	China Steel Corporation	5.2%	0%	Floor price duty method
	Chung Hung Steel Corporation	2.6%	0%	Floor price duty method
	Shang Chen Steel Co., Ltd	2.5%	0%	Floor price duty method
	Uncooperative and all other exporters	7.1%	0%	Floor price duty method

Interested parties may seek a review of this decision by lodging an application with the Anti-Dumping Review Panel ([www.adreviewpanel.gov.au](http://www.adreviewpanel.gov.au)), in accordance with the requirements in Division 9 of Part XVB of the Act, within 30 days of the publication of this notice.
