The slotted angle bar and the beams are made of the high quality steel sheet. The beams and the slotted angle bar are connected with *rivets*. In this way, it has *wonderful looks but simple structures*. This kind of rack can be *very convenient to assemble and disassemble*. According the load capacity, the shelf can be made of *steel panels or plywood*. Height between levels can be adjusted by a *pitch of 38mm*. The surface of the slotted angle rack is *powder coated*, which is antirusty and the color can last for a longer time. It is widely used in home, enterprise warehouse, and supermarket and so on.

**Remark:**

1: Loading Capacity of Step beam are based on deflection of 1/250; Tube beam and Box beam Length <1800 are based on 1/250; 1800 <L <3000 are based on 1/220; L >3000 are based on 1/250.

2: The length of beam is clearance between two end clips without Clip This Load Table.

3: Loading Capacity is for first beam level < 1500mm

### Light Duty Slotted Angle Shelves for Stores Advantages

1)It is suitable outstanding for workshops, storerooms, hobby cellar or as a garage shelf.

2)household racking

It's very popular in Germany

The shelf are 90 cm long and therefore the shelf can be constructed also as a workbench.

It is suitable outstanding for workshops, storerooms, hobby cellar or as a garage shelf.

The assembly quickly is made. A rubber hammer or similar can be used in addition

excellent performance

environment protection / colorfast

free design and considerate services

high quality with competitive price and timely delivery

good one-line service

#### Light Duty Slotted Angle Shelves for Stores Details

Assembling can be made without a single bolt. It is easy to assemble and disassemble(only with a rubber hammer ). It presents a nice appearance and easy to store and pick up manually. The loading capacity is usually 200kg-300kg which can meet most of the requirements. The major components are sheet metal processed by cold plates, which can be adjusted vertically in pitch of 50mm. In order to facilitate operator access to goods, the total height of the shelf is usually no more than two meters, if you use ladder, shelves can reach a maximum height of 3 meters. It can be used alone, and also be free to splice into various arrangement.

#### The Load Table

Width mm	1200	1500	1800
Depth mm	Load/kg		
470	300	200	150
600	350	300	200
750	350	300	250

# RIVET SHELVING

Stormor Rivet Shelving is one of the most cost effective storage methods available. From a few standard components you can create rigid, very accessible shelving units with capacities of up to 300kg per shelf level.

Advantages include:

- No nuts or bolts required
- Height can be adjusted every 38mm
- Accessible from ends
- Easy to assemble
- Strong 18mm particle board shelves
- High quality powder coated finish

Stormor Rivet Shelving offers a world of versatile solutions for many shelving applications.

## SPECIFICATIONS

## HANDY ANGLE SHELVING

Stormor Handy Angle Shelving is efficient in both it's versatility and cost-effectiveness. Available in light, medium and heavy duty lengths, Handy Angle has many different uses that are only limited by your imagination. Primarily used as shelving, Handy Angle can also be used for other applications such as:

- Mezzanine Levels
- Work Benches
- Framework
- Platforms
- Bracing

Manufactured in sizes up to 3600mm, Handy Angle is available in any 50mm increment. This ensures that your racking can accommodate your exact requirements and not waste any valuable space.

Light: 40mm x 40mm

Medium: 60mm x 40mm

Heavy: 90mm x 40mm

# LONGSPAN SHELVING

If you require shelving that is hard-wearing, carries large weight loads and is aesthetically pleasing, then Stormor Longspan is perfect for you.

Stormor Longspan is the key to solving all your general storage issues. With only three components: frames, beams and decking, installation is a simple process with many customers choosing to assemble Longspan themselves.

Stormor Longspan is envied within the industry as being the best looking shelving system in the market. Our frames have a hidden slot pattern in the rear of the posts, creating a sleek and sophisticated look.

With a huge combination of different sizes, Stormor Longspan can accommodate any application. Features and benefits include:

- Fully modular system
- Frames are pre-assembled
- Powder coated frames and beams
- Heavy duty "step beam" construction
- No sharp edges

Heavy Duty Construction

Stepped Heavy Duty Beam

Easy Adjustment

# PALLET RACKING

Used predominantly for bulk goods storage, Pallet Racking maximises the space in a warehouse to cost-effectively increase storage capacity.

With the most commonly used Pallet Racking style being selective racking, it safely provides direct access to all pallets.

Many different standard heights are available. Pallet Racking is suited to all types of warehouses, from small business store rooms to large volume distribution centres.

Mesh decks or particleboard decking with shelf supports can also be used as shelf picking levels.

Stormor has the ability to supply all leading brands of Pallet Racking whether you need to add on to an existing setup, or require a custom designed complete warehouse solution.

## MATERIALS HANDLING

Stormor supply a wide range of Materials Handling equipment.

- Picking trolleys
- Flat bed trolleys
- Feeder trolleys
- Furniture trolleys
- Motorised trolleys
- Hand trolleys
- Lift trolleys
- Workbenches
- Pallet jacks
- Step stools
- Order picking ladders
- Platform step ladders
- Container racks
- Conveyors
