Manager

By email

Dear Mr Sharma

Steel reinforcing bar from the People's Republic of China
Additional financial information

We refer to the above matter and the GOC's response to the Government Questionnaire ("GQ response").

In its GQ response, the GOC provided answers concerning the alleged subsidy programs identified in Section B of the GQ, in so far as:

- the Respondents reported usage of those programs in their Exporter Questionnaires; and
- the GOC was able to identify those programs.

Following the lodgement of the GQ response, the GOC has been provided with further information regarding amounts received by the Respondents from governments during the period 1 January 2011 to 30 June 2015, being amounts in respect of "programs" that do not correspond with any of the programs alleged by the Applicant and were not mentioned by the Commission in the GQ.

In the spirit of cooperation with the Commission's investigation, the GOC wishes to acknowledge that the Respondents did provide such additional information, as summarised in the attached spreadsheet.

The GOC advises that information in the spreadsheet is provided only for the purpose of cooperation, based on the account records of the Respondents. This does not constitute a confirmation or acknowledgement by the GOC as to the nature of the amounts or whether they are countervailable subsidies under the WTO *Subsidies and Countervailing Measures Agreement*.

Yours sincerely

Charles Zhan
Senior Lawyer
