Subject: G James Extrusion Co Pty Ltd questionnaire response

Dear Tim,

We assume that G James Extrusion Co Pty Ltd, whose response to the Commission's Australian Industry Questionnaire required by 2 November 2017 was uploaded onto the public record on 23 March 2018, is one of the 6 Australian producers that are said to have provided letters of support for Capral's dumping duty application. We therefore expect that the Australian Industry Questionnaire responded to by G James would also have been sent to the other 5 Australian producers said to have provided letters of support for Capral. Did these other 5 producers respond to the questionnaire and, if so, why are their responses not on the public record?

It is of note that, while it also applies to other sections of its questionnaire response, G James has not given a non-confidential summary of information provided in response to important sections A-8 Injury and A-9 Link between injury and dumped imports that allows a reasonable understanding of its response to them, as is required by Customs Act section 269ZJ(2) and ADA Article 6.5.1.

Regards,
Roger
