**Prepared or Preserved Tomatoes  
 Exported from Italy**

**Preliminary Affirmative Determinations and Imposition of Dumping Securities**

***Public notice under section 269TD of the Customs Act 1901***

On 11 July 2013, the Anti-Dumping Commissioner (the Commissioner) initiated an investigation into the alleged dumping of prepared or preserved tomatoes exported to Australia from Italy following an application lodged by SPC Ardmona Operations Limited.

A full description of the goods is available in Anti-Dumping Notice (ADN) No. 2013/59. This ADN is available on the internet at [www.adcommission.gov.au](http://www.adcommission.gov.au)

In accordance with paragraph 269TD(4)(a) of the *Customs Act 1901* (the Act), the Commissioner gives public notice that, on 1 November 2013, a preliminary affirmative determination has been made that there appears to be sufficient grounds for the publication of a dumping duty notice in respect of the goods exported to Australia from Italy.

In reaching this preliminary decision, the Commissioner is satisfied that dumped goods appear to have caused material injury to the Australian industry producing like goods.

The Commissioner's preliminary analysis of dumping margins in respect of prepared or preserved tomatoes is tabulated below.

*Preliminary Affirmative Determination Report No. 217* sets out the reasons for making this preliminary determination and has been placed on the Commission's public record, available at [www.adcommission.gov.au](http://www.adcommission.gov.au)

Alternatively, the public record may be examined at the Commission office by contacting the case manager on the details provided below.

At the time of making the preliminary affirmative determination, the Australian Customs and Border Protection Service is satisfied that securities should be required and taken under section 42 of the Act in respect of interim dumping duty that may become payable in respect of the goods from Italy, as it is necessary to require and take securities in order to prevent material injury occurring to the Australian industry while the investigation continues.

Securities will be taken in respect of any interim dumping duty that may become payable in respect of the goods entered for home consumption on or after 1 November 2013.

These securities will be imposed at the rate specified in the above table. A zero rate of interim dumping duty will apply to La Doria S.p.A. and Conserve Italia Soc. Coop Agr.

The Commissioner must report to the Minister for Industry (the Minister) with final recommendations in relation to this investigation on or by 30 January 2014. The Minister will then decide whether to publish a dumping duty notice and, if relevant, the level of measures to be imposed.
