Public File

Dear Mr Mantynen

Investigation No. 447 – Aluminium extrusions exported through one or more third countries from The People’s Republic of China –

Capral has been able to identify further information regarding companies involved in the circumvention (via transshipment) of aluminium extrusions to Australia that have been produced in China.

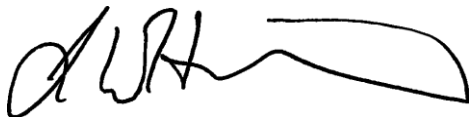

Please see Confidential Attachment 1, and 2, which is further information relating to one of these services previously identified by Capral.

Confidential Attachment 2 and 3 are further information related to a previously identified service making offers of transshipment to the USA.

The above confirms that the circumvention of Anti- Dumping and Countervailing duties of aluminium extrusions is a common occurrence.

If you have any questions concerning the attached, please let me know. I can be contacted on (02) 8222 0113 or you may contact Capral’s representative Mr John O’Connor on (07) 3342 1921.

Yours sincerely

Luke Hawkins
General Manager – Supply and Industrial Solutions
