Customs Act 1901 - Part XV B

Certain Aluminium Zinc Coated Steel

Exported from the People's Republic of China
Findings in Relation to a Subsidisation Investigation
Public notice under subsection 269TJ(2) of the Customs Act 1901

The Australian Customs and Border Protection Service (ACBPS) has completed its investigation into the alleged subsidisation of certain aluminium zinc coated steel ("the goods"), exported to Australia from the People's Republic of China (China).

The goods are classified to tariff subheading 7210.61.00 (statistical codes 60, 61 and 62) and 7212.30.00 (statistical code 61) in Schedule 3 of the *Customs Tariff Act 1995*.

A full description of the goods is available in Australian Customs Dumping Notice (ACDN) No. 2012/62. This ACDN is available on the internet at <http://www.customs.gov.au/anti-dumping/notices.asp>.

ACBPS reported its findings and recommendations to the Attorney-General in International Trade Remedies Report No. 193 (REP 193), in which it outlines the investigations carried out by ACBPS and recommends the publication of a dumping duty notice in respect of the goods. The Minister has considered REP 193 and has accepted ACBPS's recommendations and reasons for the recommendations, including all material findings of fact or law on which ACBPS's recommendations were based, and particulars of the evidence relied on to support the findings.

On 17 June 2013, ACBPS terminated its countervailing investigation so far as it relates to goods exported by Angang Steel Company Limited (ANSTEEL). Termination Report No. 193 (TER 193) sets out the reasons for these terminations. This report is available on ACBPS public record.

Particulars of the subsidy programs and level of subsidisation established for exporters are set out in the following table:

Union Steel China	1, 11, 35	7.9%
Yieh Phui Technomaterial	1, 11	5.0%
Jiangyin Zong Cheng	1, 11	10.3%
Selected non-cooperating exporters	1-2, 5, 9, 11-31, 33, 35-36	21.7%

* The names and details of each of the above countervailable subsidy programs are contained within REP 193.

I, MARK DREYFUS, Attorney-General, have considered and accepted the recommendations of ACBPS, the reasons for the recommendations, the material findings of fact on which the recommendations are based and the evidence relied on to support those findings in REP 193.

I am satisfied that a countervailable subsidy has been received in respect of the goods that have already been exported to Australia, and that a countervailable subsidy may be received in respect of like goods that may be exported to Australia in the future; and because of that, material injury to the Australian industry producing like goods has been caused, is being caused, or maybe caused in the future. Therefore under subsection 269TJ(2) of the *Customs Act 1901*, I DECLARE that section 10 of the

Customs Tariff (Anti-Dumping) Act 1975 applies to like goods that are exported to Australia after the date of publication of this notice.

This declaration applies in relation to all exporters of the goods and like goods from China to Australia excluding ANSTEEL.

The considerations relevant to my determination of material injury to the Australian industry caused by subsidisation are the size of the subsidy margins, the effect of subsidised imports on prices in the Australian market in the form of price suppression and the consequent impact on the Australian industry including loss of sales volume, loss of revenue, loss of profits and profitability, reduced capacity utilisation, reduced employment and reduced return on investment.

In making my determination, I have considered whether any injury to the Australian industry is being caused or threatened by a factor other than the exportation of subsidised goods, and have not attributed injury caused by other factors to the exportation of those subsidised goods.

Interested parties may seek a review of this decision by lodging an application with the Anti-Dumping Review Panel, in accordance with the requirements in Division 9 of Part XV B of the Act, within 30 days of the publication of this notice.

Particulars of the non-injurious prices of the goods (as ascertained in the confidential tables to this notice) will not be published in this notice as they may reveal confidential information.

Enquiries concerning this notice may be directed to the case manager on telephone number (02) 6275 8008, fax number (02) 6275 6990 or email ltrops2@customs.gov.au.
