Dear Sir/Madam,

**Re: Investigations No. 370 – Zinc coated (galvanised) steel exported from India, Malaysia and Vietnam  
– Exporter Visit Report for CSC Steel Sdn Bhd**

I refer to the recently published exporter visit report in respect of CSC Steel Sdn Bhd ("CSCM") in respect of zinc coated (galvanised) steel exported from Malaysia.

BlueScope has noted that CSCM has "related party suppliers of raw materials". It is apparent from the CSCM Exporter Verification Report that the Commission compared the purchase price of certain raw materials from the related supplier(s) with the purchase price from unrelated suppliers. It is not clear, however, whether the raw material purchase price from the related party (presumably HRC) was at full cost of production (including allocation of overheads).

BlueScope requests the Commission to confirm that related party purchases for raw material inputs are at full cost recovery.

BlueScope agrees with the Commission's decision not to apply a 'cost adjustment' for alleged cost differences for raw material costs between domestic goods and the goods exported to Australia. It is not clear from the CSCM verification report what raw material costs were the subject of the requested adjustment, however, BlueScope anticipates that the claimed cost adjustment could not be adequately substantiated and has been correctly not applied.

If you have any questions concerning this submission, please do not hesitate to contact me on (02) 4240 1214, or BlueScope's representative Mr John O'Connor on (07) 3342 1921.

Yours faithfully,
