Customs Act 1901 - Part XVB

Aluminium Zinc Coated Steel

Exported from the People's Republic of China and the Republic of Korea
Findings in Relation to a Dumping Investigation

Public notice under subsections 269TG (1) and (2) of the Customs Act 1901

The Australian Customs and Border Protection Service (ACBPS) has completed its investigation into the alleged dumping of aluminium zinc coated steel ("the goods"), exported to Australia from the People's Republic of China (China), the Republic of Korea (Korea) and Taiwan. The goods are classified to tariff subheading 7210.61.00 (statistical codes 60, 61 and 62) and 7212.30.00 (statistical code 61) in Schedule 3 of the Customs Tariff Act 1995.

A full description of the goods is available in Australian Customs Dumping Notice (ACDN) No. 2012/40 (relating to the initiation) and ACDN No. 2012/62 (relating to the clarification of the goods). These ACDNs are available on the internet at <http://www.customs.gov.au/anti-dumping/notices.asp>

ACBPS reported its findings and recommendations to the Minister for Home Affairs (the Minister) and the Attorney-General in International Trade Remedies Report No. 190 (REP 190), in which it outlines the investigations carried out by ACBPS and recommends the publication of a dumping duty notice in respect of the goods. The Attorney-General has considered REP 190 and has accepted ACBPS's recommendations and reasons for the recommendations, including all material findings of fact or law on which ACBPS's recommendations were based, and particulars of the evidence relied on to support the findings.

On 26 April 2013, ACBPS terminated its dumping investigation so far as it relates to goods exported by:

- Union Steel Co., Ltd (Union Steel Korea) from Korea; and
- Sheng Yu Co., Ltd (Sheng Yu) from Taiwan.

Termination Report No. 190A sets out the reasons for these terminations. This report is available on ACBPS's public record.

On 30 April 2013, ACBPS terminated the dumping investigation so far as it relates to goods exported from Taiwan. Termination Report No. 190B sets out the reason for the termination. This report is available on the public record.

Particulars of the dumping margin established and an explanation of the margin used to compare export prices and normal values to establish each dumping margin are set out in the following table:

Country	Exporter	Dumping Margin	Notes
China	Angang Steel Co., Ltd	5.8%	Weighted average export prices were compared with weighted average corresponding normal values over the investigation period in terms of subsection 269TACB(2)(a) of the Customs Act 1901.
	Union Steel China Co., Ltd	8.6%	
	Yieh Phui (China) Technomaterial Co., Ltd	5.5%	
	Jiangyin Zong Cheng Steel Co., Ltd	18.1%	
	All other exporters	19.3%	
Korea	Dongbu Steel Co., Ltd	5.8%	
	Union Steel Co., Ltd	<2%	
	All other exporters	7.7%	

I, MARK DREYFUS, Attorney-General, have considered, and accepted, the recommendations of ACBPS, the reasons for the recommendations, the material findings of fact on which the recommendations are based and the evidence relied on to support those findings in REP 190.

I am satisfied, as to the goods that have been exported to Australia, that the amount of the export price of the goods is less than the normal value of those goods and because of that, material injury to the Australian industry producing like goods might have been caused if the security had not been taken. Therefore under subsection 269TG(1) of the Customs Act 1901 (the Act), I DECLARE that section 8 of the Customs Tariff (Anti-Dumping) Act 1975 (the Dumping Duty Act) applies to:

- the goods; and
- like goods that were exported to Australia after 6 February 2013 (when the Chief Executive Officer of ACBPS made a Preliminary Affirmative Determination under paragraph 269TD(4)(a) of the Act that there appeared to be sufficient grounds for the publication of a dumping duty notice) but before publication of this notice.

I am also satisfied that the amount of the export price of like goods that have already been exported to Australia is less than the amount of the normal value of those goods, and the amount of the export price of like goods that may be exported to Australia in the future may be less than the normal value of the goods and because of that, material injury to the Australian industry producing like goods has been caused, is being caused, or may be caused in the future. Therefore under subsection 269TG(2) of the Act, I DECLARE that section 8 of the Dumping Duty Act applies to like goods that are exported to Australia after the date of publication of this notice.

This declaration applies in relation to all exporters of the goods and like goods from China and Korea excluding those exported by Union Steel Korea.

The interim dumping duty payable is an amount which will be worked out in accordance with the combination of fixed and variable duty method as provided for in subregulations 5(2) and (3) of the Customs Tariff (Anti-Dumping) Regulation 2013.

The considerations relevant to my determination of material injury to the Australian industry caused by dumping are the size of the dumping margins; the effect of dumped imports on prices in the Australian market in the form of price suppression and price depression and the consequent impact on the Australian industry including loss of sales volume, loss of revenue, loss of profits and profitability, reduced production capacity, reduced employment and reduced return on investment.

In making my determination, I have considered whether any injury to the Australian industry is being caused or threatened by a factor other than the exportation of dumped goods, and have not attributed injury caused by other factors to the exportation of those dumped goods.

Interested parties may seek a review of this decision by lodging an application with the Anti-Dumping Review Panel, in accordance with the requirements in Division 9 of Part XVB of the Act, within 30 days of the publication of this notice.

Particulars of the export prices, non-injurious prices, and normal values of the goods (as ascertained in the confidential tables to this notice) will not be published in this notice as they may reveal confidential information.

Clarification about how measures are applied to 'goods on the water' is available in ACDN 2012/34, available at www.customs.gov.au/anti-dumping/notices.asp
