

27 August 2013

Ref no. : PS.01.00/546/VIII/2013
Subject : **Additional Response to Statement of Essential Facts**
No. 198 Dumping of Hot Rolled Plate Steel Exported from The
People's Republic of China, Republic of Indonesia, Japan, Republic
Of Korea and Taiwan

Director Operations 2
Anti-Dumping Commission
5 Constitution Avenue
CANBERRA ACT 2601
Australia

Dear Sir,

Following our previous letter with reference number 219/DU-KS/2013, we would like to submit an additional information of response to Statement of Essential Facts (SEF) as advised on the previous email from Australian Anti-Dumping Commission, with further explanations of some changes that we presently propose, being the export price in Confidential Appendix 1 Krakatau Steel Export Price, that would make an impact to the calculation of the dumping margin.

a. Export Price

We propose to change the calculation method of export price, the present formula is [REDACTED]. We added the [REDACTED] to make it equal with the method that were used by the investigators for calculating the normal value for domestic price in Confidential Appendix 3 Krakatau Steel Normal Value, which is [REDACTED]. We think that it will only be equal if we are using the same method, therefore we chose to change it to the present formula.

b. Normal Value for HA 350 and the Like Products

We propose to change the formula to calculate the normal value for HA 350 and the Like Products in Confidential Appendix 4 Krakatau Steel Dumping Margin, using [REDACTED] instead of [REDACTED] that were used previously by the investigators. We also think that this present formula is more equal to figure out the normal value for HA 350 and the Like Products, and more comparable to normal value of HA 250.

We understand that these explanations might not be clear to you, and need to be explained on a meeting to avoid a misleading perception. Therefore, as we had said on our previous letter, we would like to propose a specific hearing to explain directly to you, so we could have common understanding regarding these matters.

We sincerely please that you would review our clarification that we might have some basic thought for your consideration. Looking forward to receiving the confirmation from you soon.

With best regards and thank you for your understanding and support.

Sincerely,

YERRY
