Customs Act 1901 - Part XVB

Certain aluminium road wheels (ARWs)

exported to Australia from

The People's Republic of China

Findings in relation to a dumping investigation

Notice under section 269TG (1) and (2) of the *Customs Act 1901*

The Australian Customs and Border Protection Service (Customs and Border Protection) has completed its investigation into the alleged dumping of certain aluminium road wheels (ARWs) (the goods), classified to tariff subheading 8708.70.91/ 78, 8708.70.99/ 80 and 8716.90.00/ 39 in Schedule 3 of the *Customs Tariff Act 1995* exported to Australia from the People's Republic of China (China).

In International Trade Remedies Report No. 181 (REP 181) Customs and Border Protection recommended the publication of a dumping duty notice in respect of the goods. REP 181 outlines the investigations carried out by Customs and Border Protection, a statement of the reasons for the recommendations contained in REP 181, material findings of fact or law on which Customs and Border Protection's recommendations were based and particulars of the evidence relied on to support the findings.

Particulars of the dumping margins established for exporters and an explanation of the methods used to compare export prices and normal values to establish each dumping margin are set out in the following table:

CITIC Dicastal Wheel Manufacturing Co. Ltd	6.3%	Weighted average export prices were compared with weighted average corresponding normal values over the investigation period in terms of subsection 269TACB(2)(a) of the <i>Customs Act 1901</i> .
Pilotdoer Wheel Co. Ltd	19.9%	
Zhejiang Jinfei Kaida Wheel Co. Ltd	5.6%	
Zhejiang Yueling Co. Ltd	9.9%	
Selected non-cooperating exporters	29.3%	

I, JASON CLARE, Minister for Home Affairs, have considered, and accepted, the recommendations of Customs and Border Protection, the reasons for the recommendations, the material findings of fact on which the recommendations are based and the evidence relied on to support those findings in REP 181. I am satisfied, as to the goods that have been exported to Australia, that the amount of the export price of the goods is less than the normal value of those goods and because of that, material injury to the Australian industry producing like goods might have been caused if the security had not been taken. Therefore under s.269TG(1) of the *Customs Act 1901* (the Act), I **DECLARE** that section 8 of the *Customs Tariff (Anti-Dumping) Act 1975* (the Dumping Duty Act) applies to:

- the goods; and
- like goods that were exported to Australia after 31 May 2012 (when the Chief Executive Officer made a Preliminary Affirmative Determination under s.269TD(4)(a) of the Act that there appeared to be sufficient grounds for the publication of a dumping duty notice) but before publication of this notice.

I am also satisfied that the amount of the export price of like goods that have already been exported to Australia is less than the amount of the normal value of those goods, and the amount of the export price of like goods that may be exported to Australia in the future may be less than the normal value of the goods and because of that, material injury to the Australian industry producing like goods has been caused. Therefore under s.269TG(2) of the Act, I **DECLARE** that section 8 of the Dumping Duty Act applies to like goods that are exported to Australia after the date of publication of this notice.

This declaration applies in relation to all exporters of the goods and like goods from China to Australia other than Zhejiang Shuguang Industrial Co. Ltd.

The considerations relevant to my determination of material injury to the Australian industry caused by dumping are the size of the dumping margins, the effect of dumped imports on prices in the Australian market in the form of price suppression and the consequent impact on the Australian industry including loss of sales volume, loss of revenue, loss of profits and profitability, reduced capacity utilisation, reduced employment and reduced return on investment. In making my determination, I have considered whether any injury to the Australian industry is being caused or threatened by a factor other than the exportation of dumped goods, and have not attributed injury caused by other factors to the exportation of those dumped goods.

Interested parties may seek a review of this decision by lodging an application with the Trade Measures Review Officer, in accordance with the requirements in Division 9 of Part XVB of the Act, within 30 days of the publication of this notice.

Particulars of the export prices, non-injurious prices, and normal values of the goods (as ascertained in the confidential tables to this notice) will not be published as they may reveal confidential information.

Enquiries concerning this notice may be directed to the case manager on telephone number (02) 6275 5649, fax number (02) 6275 6990 or email itrops2@customs.gov.au.

Dated this 27 day of June , 2012

Minister for Home Affairs
