**Anti-Dumping Commission**

Customs Act 1901 - Part XVB

**Hot rolled plate steel**

**Exported from the People's Republic of China,  
the Republic of Indonesia, Japan and the  
Republic of Korea**

**Findings in Relation to a Dumping Investigation**

**Public notice under subsections 269TG(1) and 269TG(2) of the Customs Act 1901**

The Anti-Dumping Commission (the Commission) has completed its investigation into the alleged dumping of hot rolled plate steel ("the goods"), exported to Australia from the People's Republic of China (China), the Republic of Indonesia, Japan, the Republic of Korea (Korea) and Taiwan.

The goods are classified to tariff subheadings

- 7208.40.00 statistical code 39;
- 7208.51.00 statistical code 40;
- 7208.52.00 statistical code 41;
- 7225.40.00 statistical codes 22 and 24.

in Schedule 3 of the *Customs Tariff Act 1995*.

A full description of the goods is available in Australian Customs Dumping Notice (ACDN) No. 2013/18 and ACDN 2013/20. These ACDNs are available on the internet at [www.adcommission.gov.au](http://www.adcommission.gov.au)

The Commission reported its findings and recommendations to the Minister for Industry (the Minister) in *Anti-Dumping Commission Report to the Minister No. 198* (REP 198), in which it outlines the investigations carried out by the Commission and recommends the publication of a dumping duty notice in respect of the goods. The Minister has considered REP 198 and has accepted the Commission's recommendations and reasons for the recommendations, including all material findings of fact or law on which the Commission's recommendations were based, and particulars of the evidence relied on to support the findings.

On 10 September 2013 the Commission terminated part of its dumping investigation into the goods exported by all exporters from Taiwan, Hyundai Steel Company and POSCO from Korea and Shandong Iron and Steel, Jinan Company (JIGANG) from China. *Termination Report No. 198* sets out the reasons for these terminations. This report is available on the Commission's website.

Particulars of the dumping margins established and an explanation of the methods used to compare export prices and normal values to establish the dumping margins are set out in the following table:

China	Shandong Iron and Steel, Jinan Company (JIGANG)	<2%	Weighted average export prices were compared with weighted average corresponding normal values over the investigation period in terms of s.269TACB(2)(a) of the Customs Act 1901.
	All other exporters (except JIGANG)	22.1%	
Indonesia	PT Gunung Rajapaksi (Rajapaksi)	8.6%	
	PT Krakatau Steel (Krakatau)	11.3%	
	PT Gunawan Dianjaya Steel (Dianjaya)	11.3%	
	All other exporters (except Rajapaksi, Krakatau and Dianjaya)	19%	
Japan	All exporters	14.3%	
Taiwan	Shang Chen Steel Co., Ltd (Shang Chen)	<2%	
	Chung Hung	5%	
	China Steel Corporation and China Steel Global Trading	<2%	
Korea	Hyundai Steel Company	<2%	
	Dongkuk Steel Mill; Co., Ltd	18.4%	
	POSCO	<2%	
	All other exporters (except Dongkuk Steel Mill, Co., Ltd (DSM), Hyundai Steel Company and POSCO)	20.6%	

I, IAN MACFARLANE, Minister for Industry, have considered, and accepted, the recommendations of the Commission, the reasons for the recommendations, the material findings of fact on which the recommendations are based and the evidence relied on to support those findings in REP 198.

I am satisfied, as to the goods that have been exported to Australia, that the amount of the export price of the goods is less than the normal value of those goods and because of that, material injury to the Australian industry producing like goods might have been caused if the security had not been taken. Therefore under subsection 269TG(1) of the Customs Act 1901 (the Act), I **DECLARE** that section 8 of the *Customs Tariff (Anti-Dumping) Act 1975* (the Dumping Duty Act) applies to:

- the goods; and
- like goods that were exported to Australia after 19 July 2013 (when the Anti-Dumping Commissioner of the Commission made a Preliminary Affirmative Determination under section 269TD of the Act that there appeared to be sufficient grounds for the publication of a dumping duty notice) but before the publication of this notice.

I am also satisfied that the amount of the export price of like goods that have already been exported to Australia is less than the amount of the normal value of those goods, and the amount of the export price of like goods that may be exported to Australia in the future may be less than the normal value of the goods and because of that, material injury to the Australian industry producing like goods has been caused or is being caused. Therefore under subsection 269TG(2) of the Act, I **DECLARE** that section 8 of the Dumping Duty Act applies to like goods that are exported to Australia after the date of publication of this notice.

This declaration applies in relation to all exporters of the goods and like goods from China (except JIGANG), Indonesia, Japan and Korea (except Hyundai Steel Company and POSCO).

The considerations relevant to my determination of material injury to the Australian industry caused by dumping are the size of the dumping margins, the effect of dumped imports on prices and the consequent impact on the Australian industry including loss of sales volume, reduced revenues, price depression and suppression, reduced profits and profitability, reduced return on income and loss of employment.

In making my determination, I have considered whether any injury to the Australian industry is being caused or threatened by a factor other than the exportation of dumped goods, and have not attributed injury caused by other factors to the exportation of those dumped goods.

Interested parties may seek a review of this decision by lodging an application with the Anti-Dumping Review Panel, in accordance with the requirements in Division 9 of Part XVB of the Act, within 30 days of the publication of this notice.

Particulars of the export prices, non-injurious prices, and normal values of the goods (as ascertained in the confidential tables to this notice) will not be published in this notice as they may reveal confidential information. Clarification about how measures are applied to 'goods on the water' is available in ACDN 2012/34, available at [www.adcommission.gov.au](http://www.adcommission.gov.au).

REP 198 and other documents included in the public record are available at [www.adcommission.gov.au](http://www.adcommission.gov.au). Alternatively, the public record may be examined at the Commission office by contacting the case manager on the details provided below.

Enquiries about this notice may be directed to the case manager on telephone number 02 6275 6129, fax number 1300 882 506 or +61 2 6275 6888 (outside Australia) or [operations2@adcommission.gov.au](mailto:operations2@adcommission.gov.au).

Dated this 3rd day of December 2013.

IAN MACFARLANE  
Minister for Industry
